Architecture & Construction				
<i>Career Ideas For Teens in Architecture and Construction</i>		<i>Diane Lindsey Reeves</i>	Construction and architecture form one of the largest industries in the United States. From planning, drafting, and building to maintenance and operations, this field offers a broad range of exciting, hands-on careers. The careers profiled include: Architect; Brick mason; Carpenter; Civil engineer; Demolition engineer; Electrician; Estimator; General contractor; Interior designer; Landscape architect; Preservationist; and Urban planner.	2005
<i>Steven Caney's Ultimate Building Book</i>		<i>Steven Caney</i>	Ever wonder how a suspension bridge can cross a gap thousands of feet wide? Want to know how to build a comfortable lounge chair out of cardboard boxes? Or what keeps a massive cathedral dome from collapsing? Discover the answers to these and many more questions in Steven Caney's Ultimate Building Book, a wonderfully comprehensive exploration of design, construction, and invention that will stimulate the curiosity of children and adults alike.	2006
<i>The Art of Construction: Projects and Principles for Beginning Engineers & Architects</i>		<i>Mario Salvadori</i>	Students discover the basic principles necessary to build all types of structures used in everyday life including bridges, skyscrapers, and other architectural gems. Line art illustrations help to explain projects that demonstrate how these principles keep structures solid. Perfect for kids who wonder why, and love to figure things out! All projects are easily done with materials found around-the-house.	2000
