Transportation, Distribution & Logistics				
<i>Green Ways of Getting Around: Careers in Transportation</i>		<i>Diane Dakers</i>	The five chapters in this book include up-to-date information on transportation, in general and in land travel, water travel, air travel and urban planning relating to transportation, in particular. The focus is on sustainable developments in all areas using well-researched information.	2011
<i>Career Ideas for Teens in Transportation, Distribution, and Logistics</i>		<i>Diane Lindsey Reeves</i>	Discusses many career opportunities in the field of transportation, distribution and logistics.	2011
<i>How Cars Work</i>		<i>Tom Newton</i>	This book was developed as a high interest mini-textbook for teens, but is also used by automotive service managers and mechanics to help customers understand repairs. This book can be found in adult literacy programs, high schools, and middle schools. How Cars Work makes it fun and easy to learn how cars work.	1999
<i>Tomorrow's Transportation: Green Solutions for Air, Land, & Sea</i>		<i>Malinda Miller</i>	Presents information on the changing job opportunities available to those interested in environmentally responsible transportation.	2010
