Career Heroes Bingo

The Career Heroes Trading Cards are provided as part of the Career Heroes classroom set. The occupations on the bingo cards on the following pages coincide with the occupations on the trading cards. There are a total of 30 different bingo cards using the 32 trading card occupations.

INSTRUCTIONS FOR BINGO:

1. Give every student a bingo card.

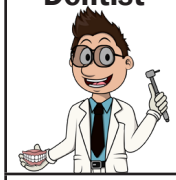

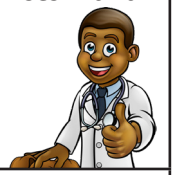

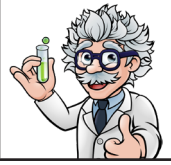

2. Call out the occupation name or clues about the occupation. This can be done a few different ways:

> ***Option 1*** *- Read clues from a trading card until a student raises their hand to guess what occupation it may be. After you are given a correct answer, any students that have that occupation on their cards will mark it off and you will move on to the next card.*
>
> ***Option 2*** *- Download trading card images from the DCRN website and put them on a screen through a smartboard or projector for the students to see the front of the cards. If the occupation that is on the screen is also on their bingo card, they mark it off.*
>
> ***Option 3*** *- This option is a combination of both 1 and 2. You would read clues from a trading card until a student raises their hand to guess what occupation it may be. After you are given a correct answer, any students that have that occupation on their cards will mark it off. Before moving to the next card, put the occupation on a screen through a smartboard or projector for the students to see. This will also give you an opportunity to discuss the occupation in more detail if time allows. Continue with the next trading card.*

3. Students must then identify the word or picture on their bingo card and mark off the space.

4. If a student has all words or pictures covered diagonally, across a row or vertically in a column, they should call out BINGO.
