Delaware Career Compass
2012 – 2013

I'd be happy to write you a reference.
You got the job!
You've been accepted!
music to your ears

Published by the Delaware Department of Labor
Office of Occupational and Labor Market Information
with sponsorship of the Delaware Advisory Council on Career and Technical Education
Dear Students,

As Governor, it is my pleasure to present the 2012 edition of the Delaware Career Compass. One of our state’s continued commitments is ensuring that every student and job seeker has the opportunities and resources available to follow their goals and attain their dreams. I hope the Delaware Career Compass serves you well in that regard.

This year’s theme -“Music to Your Ears”- emphasizes words that mean our hard work has paid off, e.g., You got the job!, I would be happy to write you a reference., and Your cover letter caught my attention.

Within this publication you will find dozens of opportunities to help you develop the necessary skills to pursue and prosper in your chosen profession. The Delaware Career Compass is just one of many resources that are available to you.

I wish you the best as you search for a vocation that will allow you to realize your life goals and prove to everyone that our state’s best days truly are ahead of us.

Sincerely,

Jack A. Markell
Governor

Music to Your Ears

What could someone say to you that would be MUSIC to YOUR EARS? Would you be happy to hear these words?

- Your work has really improved.
- You earned it. Well done.
- You won the scholarship.
- You’ve been accepted.
- I would be happy to provide you with a reference.
- Your cover letter caught my attention.
- You are extremely well-prepared.
- You got the job!
- Here’s your first paycheck.

To hear these statements in your future, you must prepare now.

Follow these 4 steps to success

1. Self Assessment: Who Am I?
   Learn about yourself, your learning styles, your likes, your interests, and your skills.

2. Occupational Research: What’s Out There?
   Learn as much as you can about a variety of occupations; investigate what’s available and the preparation needed.

3. Decision Making: How Do I Decide?
   Develop personal and career objectives.

4. Action Plan: How Do I Do It?
   Investigate options for education and training. Learn the skills to seek and keep a job. Review where you are and where you want to be.
**Step 1: Who Am I?**

You are unique.
What makes you unique?
- your math aptitude?
- your organizational skills?
- the way you play violin?
- your physical abilities?
- your outgoing personality?
- your sense of humor?
- your leadership skills?
- your perseverance?

You are suited to some occupations more than others.
For example:
If you have strong math skills, you might be happy as an accountant, engineer, teacher, physicist, actuarial analyst, geodetic surveyor, or many others.

If you have a social personality you might be happy as a teacher, waiter, psychologist, tour guide, dental hygienist, registered nurse, or many others.

The Step 1 self-assessments will provide the foundation for your overall career path. When you finish, you will have a good idea of what kind of work you might enjoy.

---

Learn how to use O*NET
O*NET OnLine is an interactive occupational database that provides information on more than 820 occupations. As you learn more about yourself, use O*NET to find careers that are a good match for you.

Information on O*NET includes:
- occupation descriptions
- tools and technology used
- knowledge, skills, & abilities
- bright outlook occupations
- education/training needed
- occupations in demand
- work activities
- wages
- green jobs

What is a SOC code?
SOC stands for Standard Occupational Classification system. These codes are used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data. All workers are classified according to their occupational definition.

If you know the SOC Code of an occupation, enter it into the Occupation Quick Search box on the home page of O*NET OnLine. You will be connected to a wealth of information about that occupation.

SOC Code examples:
15-1131 - Computer Programmers
41-2011 - Cashiers
19-3051 - Urban Planners
27-3041 - Editors
47-2021 - Brickmasons

O*NET™ is a trademark of the U.S. Department of Labor, Employment and Training Administration.
What Is Your Dream Occupation?

1. Imagine your future.

• Where do you see yourself working?
• What are you doing?
• What are you wearing?
• What do your surroundings look like? Are you inside or outside?
• Is there anyone else in the picture?
• Are you using tools or equipment?
• Are you sitting at a computer?
• Are you on the phone?
• Do you have a beautiful view from an office window?
• Is your energy level high?
• Are you feeling the job pressure and is it exciting to you?
• Are people depending on you?
• Are you working as part of a team?
• Do you feel important as you are doing your work?

• Are you using your physical strength to accomplish your work?
• Are you creating something brand new?
• Are you making the world a more beautiful place?
• Are you travelling?
• Are you using your talents to their fullest capabilities?
• Are you enjoying your co-workers?
• Are you learning from your co-workers?
• Are you satisfied? Why?

2. Draw a detailed picture of your dream job and then give it a descriptive caption.

CAPTION:

3. Write your dream occupation in the above right corner.

As you work through Step 1, you will learn more about yourself. This information will help you determine whether you and your dream occupation are a good match.
What Is Your Learning Style?

People learn in different ways. Your unique style of learning will match some occupations better than others. Use the results of this assessment to help you with your career plans. And remember that learning is easier when you use study skills that are consistent with your individual learning style.

1. Assign a point value to each statement below. 1 pt. = seldom or never 2 pts. = sometimes 3 pts. = often

<table>
<thead>
<tr>
<th>Column 1</th>
<th>Column 2</th>
<th>Column 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>___ I remember better if I write it down.</td>
<td>___ My papers and notebooks always seem messy.</td>
<td>___ I start a project before reading the directions.</td>
</tr>
<tr>
<td>___ Looking at a person helps keep me focused.</td>
<td>___ I do not follow written directions well.</td>
<td>___ I hate to sit at a desk for long periods of time.</td>
</tr>
<tr>
<td>___ I need a quiet place to get my work done.</td>
<td>___ If I hear something, I will remember it.</td>
<td>___ I prefer to see something done and then do it myself.</td>
</tr>
<tr>
<td>___ When I take a test, I can see the textbook in my head.</td>
<td>___ Writing has always been difficult for me.</td>
<td>___ I use the trial and error approach to problem solving.</td>
</tr>
<tr>
<td>___ Music or background noise distracts my attention.</td>
<td>___ I often misread words from the text.</td>
<td>___ I like to read my textbook while riding an exercise bike.</td>
</tr>
<tr>
<td>___ I doodle in the margins of my notebook.</td>
<td>___ I would rather listen and learn than read and learn.</td>
<td>___ I take frequent study breaks.</td>
</tr>
<tr>
<td>___ I have trouble following lectures.</td>
<td>___ Pages with small print are difficult for me to read.</td>
<td>___ I have a difficult time giving step-by-step directions.</td>
</tr>
<tr>
<td>___ I react very strongly to colors.</td>
<td>___ It’s hard for me to interpret others’ body language.</td>
<td>___ I enjoy sports and do well at several types of sports.</td>
</tr>
<tr>
<td>___ I like to build things.</td>
<td>___ My eyes tire quickly, though my vision check-up is ok.</td>
<td>___ I am constantly fidgeting.</td>
</tr>
</tbody>
</table>

TOTAL ________  TOTAL ________  TOTAL ________

2. Total each column. A total of 20 or more indicates a strength in that area. The learning style with the highest score indicates the most efficient method of information intake for you.

If column 1 is your highest score, you are a:

VISUAL LEARNER
You learn best by:
• creating vivid mental images
• working with pictures and colors
• using graphics like films, slides, illustrations, diagrams, and doodles to reinforce learning
• asking for written directions
• visualizing the spelling of words
You may like the following occupations:
Graphic Designer Architect
Navigator Mechanic
Surgeon Webmaster

If column 2 is your highest score, you are an:

AUDITORY LEARNER
You learn best by:
• listening
• using tapes for reading and class lecture notes
• participating in discussions
• having test questions read aloud
• hearing directions
You may like the following occupations:
Translator Teacher
Counselor Salesperson
Musician Psychologist

If column 3 is your highest score, you are a:

KINESTHETIC/TACTILE LEARNER
You learn best by:
• hands-on activities
• using physical activity
• performing a variety of tasks like making models, doing lab work, or role-playing
• using computers to reinforce touch
You may like the following occupations:
Athlete Firefighter
Dancer Actor
Sculptor Construction

3. Write your preferred learning style at the top of this page. Choose one of the occupations under your preferred learning style to research on O*NET. Write that above, as well.
What Do You Like?

Likes and dislikes are extremely important in career planning. Knowing what you like to do (and what you don’t) will help you to narrow the field of occupational choices. The statements below will help you answer the question, “What do I like the best?”

1. Circle the number for each phrase that describes you.
   1. I’d rather make something than read a book.
   2. I enjoy problem-solving games and working at puzzles.
   3. I like helping other people when they need it.
   4. I enjoy learning about new topics by reading about them.
   5. I like working with my hands.
   6. I like being the leader in a group of people.
   7. I prefer to know all the facts before I tackle a problem.
   8. I like to take care of other people.
   9. I enjoy designing, inventing, and creating things.
   10. I enjoy expressing myself through art, music, or writing.
   11. I would like a job where I could deal with people all day.
   12. I like working with materials and equipment.
   13. I enjoy learning new facts and ideas.
   14. I find cooperating with others comes naturally to me.
   15. I like finding out how things work by taking them apart.
   16. I would choose to work with things rather than w/ people.
   17. I can usually persuade people to do things my way.
   18. I enjoy building and repairing things.
   19. I enjoy the research part of my projects.
   20. I like interacting with people.
   21. I enjoy thinking up different ideas and ways to do things.
   22. I like hearing other people’s opinions.
   23. I enjoy learning how to use different tools.
   24. I find it easy to follow written instructions.

2. Which numbers did you circle in #1? Circle those same numbers in the three groups below.
   A. 1 5 9 12 15 16 18 23
   B. 3 6 8 11 14 17 20 22
   C. 2 4 7 10 13 19 21 24

3. What does it mean?
The group (A, B or C) with the most circled numbers indicates your area of strongest interest. The group with the second most circled numbers is an area that you find interesting also, but not as much as the first group. Read the description that corresponds to your area of strongest interest.

   A. I LIKE TO WORK WITH MY HANDS
   You enjoy using tools and machines, making objects with your hands, maintaining and fixing equipment, and finding out how things work.

   B. I LIKE TO WORK WITH PEOPLE
   You enjoy caring for and helping others, persuading people, working as part of a team, and leading and supervising others.

   C. I LIKE TO WORK WITH INFORMATION
   You enjoy expressing yourself through writing, music or art, doing experiments or researching, solving puzzles and problems, and studying and reading.

4. After you have determined what you like most, write it in the space at the top of this page (I like...). Then take a look at the occupations listed under your strongest area of interest on the next page. Find two occupations that you would like to research and write them in the spaces above.
### I like to work with my hands

There are many occupations for those who have a knack for using tools and machines, are curious about how things work, and like to build, operate, and maintain equipment. The occupations below require hands-on skill with things.

Visit O*NET for job descriptions: [www.onetonline.org](http://www.onetonline.org)
What Is Your Holland Code?

Dr. John Holland reasoned that people work best in work environments that match their preferences. He theorized that both people and occupations can be loosely classified into six different groups. Most people are some combination of two or three groups. These two or three letters are called your Holland Code (or interest code).

The Holland Code groups are:
- R - Realistic
- I - Investigative
- A - Artistic
- S - Social
- E - Enterprising
- C - Conventional

My Holland (Interest) Code is:
1. _____ ___________________________
2. _____ ___________________________
3. _____ ___________________________

These 2 occupations might be a good match:
a. ____________________________________
b. ____________________________________

To discover your Holland Code, complete one of the activities listed below.

I. Play the Holland Code Party Game on the next page.

II. Complete the Holland Code activity on pages 10 & 11.

III. Play the Party Game included in the Career Compass Teacher’s Guide.

IV. Complete the free O*NET OnLine Interest Profiler at: [www.onetcenter.org/IP.html](http://www.onetcenter.org/IP.html)

Why is it important to match your Holland (interest) Code to the occupation’s code?

Your personality type (Holland Code) matched with a compatible work environment (Holland Code) will likely lead to job satisfaction and success!
Imagine the hexagon below is a room and you are at a party. In the different corners stand groups of people with different abilities and preferences. Read the definitions for each of the groups.

People who have athletic or mechanical ability, or who prefer to work with objects, machines, tools, plants or animals, or to be outdoors.

People who like to observe, learn, investigate, analyze, evaluate, or solve problems.

People who like to work with data, have clerical or numerical ability, carrying things out in detail, or following through on others’ instructions.

People who have artistic, innovative, or intuitional abilities, and like to work in unstructured situations, using their imagination and creativity.

People who like to work with people – to influence, persuading or performing, or leading or managing for organizational goals or economic gain.

People who like to work with people – to inform, enlighten, help, train, develop, or cure them, or who are skilled with words.

1. Play the Holland Code Party Game*

1. Imagine the hexagon below is a room and you are at a party. In the different corners stand groups of people with different abilities and preferences. Read the definitions for each of the groups.

2. Toward which corner of the room would you naturally gravitate? Write the number 1 next to that letter above.

3. After 15 minutes, everyone in the corner you have chosen leaves for another party. Of the corners that remain, which one do you want to join now? Write the number 2 next to that letter.

4. After another 15 minutes, this group also leaves for another party. (Don’t get paranoid, it’s not because of your conversation!) Of the remaining corners, which one do you choose now? Write the number 3 next to that letter.

5. These 3 letters are your Holland Code. Write them at the top of page 8. Look on page 12 (or on O*NET) to find occupations that match your highest interest and write two of them on page 8.

6. What has this process told you about the type of environments you most enjoy? And those you should avoid?

## 1. Discover Your Holland Code

Read each statement on pages 10 & 11 and put a check in the box to the left of each one that applies to you.

- Teller
What Basic Skills Do You Have?

The skills below can be used in almost every workplace situation. They are often called transferable skills because they are not limited to any one academic discipline or knowledge area but are applicable to many occupations. Use this exercise to identify your areas of strength, as well as those skills that need more development.

1. Check your skill level, Can Do or Needs Work, for each phrase below. Then make a plan to improve the areas that need work.

<table>
<thead>
<tr>
<th>Can Do</th>
<th>Needs Work</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Communication Skills</strong></td>

2. Choose your two strongest skills and your two weakest skills and write them above.

Two skills I have that I’m very proud of are:
1. ______________________________________
2. ______________________________________

Two skills I will work on are:
1. ______________________________________
2. ______________________________________
Drugs and Alcohol

The National Institutes of Health has reported that alcohol and drug abuse cost the economy $246 billion annually. In addition to pure monetary loss, negative effects of drug abuse on the workplace include:
• lost productivity;
• increased absenteeism;
• increased on-the-job accidents;
• increased medical insurance costs; and
• increased employee theft.

To fight this problem, corporate America has taken a strong stand to provide a drug-free workplace. Applicant and employee drug testing are now standard practice. Many companies have established policies that prohibit the hiring of a person who presents positive test results indicating the use of drugs.

So what does all this mean to you as a job applicant?
As time goes on, chances become greater and greater that you will be asked to take a drug test before you will be hired. Some employers include information about their drug policy on the application form. Others tell applicants in the first interview that drug testing is required. But don’t count on getting a warning; some employers make no mention of drug testing in advance.

Drug testing should not be taken lightly.
A positive test result, or answering “yes” to a question about drug use, may eliminate your chances for employment. Different companies have different policies. Some may allow retesting if a test result is positive and some may be more lenient towards someone who last used drugs over five years ago. But others will reject an applicant on the basis of one positive test.

Employers conduct drug screenings in various ways:
by asking applicants about current and past drug use;
by giving pencil-and-paper or polygraph (lie detector) tests; or by medical tests of urine, blood, or hair samples. The most commonly used test is a urinalysis, which is laboratory testing of a urine sample. Retention time (the length of time any substance remains in the body and can be detected in the urine) varies with the drug and the individual.

Current military policy is zero tolerance, meaning that all military personnel are subject to immediate discharge if a drug test has a confirmed positive result. The Defense Department is continuing its anti-drug efforts with a new policy that involves more frequent random testing of active duty military, reservists, and civilian employees.

What is my responsibility?
• Do not use drugs!
• If you have a substance abuse problem, GET HELP!
• Ask if there is going to be drug screening and why.
• Be sure that in having a drug test done, your rights to privacy and dignity are not invaded.
• Don’t misuse prescription drugs. Don’t take any drugs not personally prescribed to you by your own doctor. Report any prescription drugs or medications taken before testing.
• Find out what type of laboratory testing is done to be sure fair and accurate procedures are in place.
• Know the company’s policy on retesting.
• Ask for reasons for employment rejection.
• Be aware that not wanting to take a drug test may be interpreted as fear of a positive test result.

NEED HELP?
Many times, the use of alcohol or substances is an attempt to self-medicate an underlying mental health problem. If you have concerns about yourself or a loved one’s mental health, call the Mental Health hotline at: 800-652-2929.

Step 1: What Have You Learned About Yourself?

Assessment Summary

Page 4: My dream occupation is: ________________________________

Page 5: My preferred learning style is: ________________________________

Page 6: I like to work with: ________________________________

Page 8: My Holland (Interest) Code is: letters: __________ __________ __________

Page 13: My two strongest basic skills are: ________________________________

I need to work on these two skills: ________________________________
Of the occupations you researched in Step 1, which two do you think are the best match so far?

<table>
<thead>
<tr>
<th>SOC Code</th>
<th>Occupation Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. _____</td>
<td>__________________</td>
</tr>
<tr>
<td>2. _____</td>
<td>__________________</td>
</tr>
</tbody>
</table>

Are there other occupations you want to research because you think they might be a good match? Write those below.

<table>
<thead>
<tr>
<th>SOC Code</th>
<th>Occupation Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>3. _____</td>
<td>__________________</td>
</tr>
<tr>
<td>4. _____</td>
<td>__________________</td>
</tr>
</tbody>
</table>

Yes!
You are probably someone who has a clear picture of who you are, so you weren’t at all surprised by the results of the activities in Step 1. If you have found that your dream occupation is still a good match, then prepare for it as you move forward with your career journey. However, it never hurts to keep an open mind about other occupations. You may find an exciting occupation that you didn’t even know existed!

No
You may have learned something from the activities in Step 1 that helped you to realize your dream occupation wasn’t as good a match as you thought it was. By researching lots of occupations, you are not abandoning your dream but broadening the possibilities. Perhaps your research will reroute you to something even better - a new, more fitting dream.
Step 2: What’s Out There?

Learn about Delaware’s labor market. When you are finished with this step, you will have a wealth of occupational and labor market information to use in your career decision-making process.

You learned about yourself.

Exploring the World of Work

The world of work is changing faster than ever. It is unusual for an employee to stay with the same company or even in the same occupation for a lifetime. You should expect to have many different jobs throughout your career.

Take time now to learn about Delaware’s labor market, so that you will be prepared to manage your career throughout your lifetime.

Find out:
- What kinds of occupations are growing
- Which occupations have a high turnover rate
- What wages you can expect in a particular job
- What education or training is needed to be fully qualified for an occupation
- What basic skills are needed for the occupations that interest you

Begin your research now.

Did you know that...
Computer Programmers who work in New Castle County average $38.84/hr?
Computer Programmers who work in Kent County average $33.55/hr?
Computer Programmers who work in Sussex County average $29.04/hr?

Do the math:
ave. hourly \times 2,080 = \text{ave. annual wage}
NCC: \quad 38.84 \times 2,080 = \$80,787/yr
Kent: \quad 33.55 \times 2,080 = \$69,784/yr
Sussex: \quad 29.04 \times 2,080 = \$60,403/yr

What does that mean for you?
Should you train for an occupation that is growing rapidly so you have a better chance of getting a job?
Are you confident that, even if job openings are not growing, your skills & abilities will make you a top candidate?

Don’t abandon your interests

What if you don’t have the talent to make it as a professional athlete? You might find career satisfaction as a coach, or a trainer, or an agent, or a team marketer, or a field maintenance worker – or in many of the other occupations in which you can indulge your love of sports and still earn a good living.
How can LMI benefit you?
If you are unsure of a career path, labor market information can help you pick out potential occupations by supplying you with current and projected data including:

- occupation descriptions
- average wages
- education and training needed
- expected job openings

If you are interested in excellent job availability and above average wages, use our most recent projections to find occupations that meet both criteria. These occupations include Registered Nurses, Accountants, Elementary School Teachers, and Construction Managers. Add the education piece to this information and you will find that Accountants and Elementary School Teachers require a Bachelor’s degree and Registered Nurses and Construction Managers require an Associate’s.

For those of you who are more interested in vocational education, we have data on 27 different occupations in Delaware, some with high wages, some with low wages, some with excellent job availability, and some whose job prospects are poor. It’s better to know the educational demands of the occupation you are considering before you start training, rather than after.

Projections: 2010 – 2020
Delaware is projected to have 48,450 more jobs in 2020 than in 2010, for an average annual growth rate of 1.07 percent. Health Care and Social Assistance is expected to create far and away the greatest number of jobs, with projected growth of 13,140 jobs. More than one-quarter of the net new jobs in Delaware are projected to come in this industry. Already the state’s biggest industry in terms of employment, it will be even more dominant by 2020.

Career Clusters
The US Department of Education developed 16 groups, or clusters, as a way to link school and work, helping you to choose a curriculum which is best suited to your career plans. Take a look at the chart at right.

The Marketing, Sales & Service cluster is expected to generate the most job openings, more than 2,270 annually, while the Government and Public Administration cluster is expected to generate the fewest, at just over 90 annually.

Information Technology is the highest-paying cluster; its occupations paid an average wage of $80,562 in 2010. Hospitality and Tourism had the lowest average wage; this cluster’s occupations paid an average $23,349 in 2010.
**Career Cluster Titles**

- Science, Technology, Engineering & Math.: $78,735
- Arts, A/V Technology & Communications: $51,886
- Government & Public Administration: $54,207

**Average Annual Job Openings**

**SOURCE:** Delaware Department of Labor in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics
### Delaware Occupations: Most Total Annual Openings

#### What is a job replacement?
A job replacement is a job opening that was created because someone retired, was promoted, or left the job for another reason such as illness.

#### What is a new job?
A new job is one that no one has ever held before. All jobs in a brand new business would be considered new. A growing business might need to create jobs in order to meet the increased demand for its services. These jobs are new.

#### What are total annual openings?
Total annual openings are the sum of job replacements plus new jobs within an occupation.

Technology: Use It Wisely

Blogs, Websites, & Social Media
Sure, it can be fun and educational to build a website or write a blog. And it’s no secret that social networking sites are becoming more popular everyday as they offer us a way to keep in touch with family, friends, and the world at large. But if we become too comfortable using these tools and throw good judgment to the wind, we may find ourselves out of a job or unable to get one. Employers are watching you, so proceed with caution.

♫ ASSUME THAT NOTHING IS PRIVATE!
Post only that which is appropriate for an employer (or your mother!) to read.

Use Technology to Your Advantage
Blogs: Consider starting a blog that is related to your future career. For example, if you are interested in computer mapping, start a blog about geographic information systems, Delaware geography, occupational trends, and include professional organizations and the latest GIS technology. Invite conversation about the field from others with similar interests. Keep it professional and use it to your job-search advantage.

Websites: When you begin looking for your first job, consider building a job-related website that includes your resume, writing samples, and certifications. Include only professional and academic information. Link it to your professional blog.

Social Media: Set your profile to private. Think before you post! Filter your content, language, and photos. Never post about your former or current employers. Everything posted about you - true or not - will be viewed as a reflection of your character, so be very careful.

Fixing a Faulty Social Media Reputation by Janet Wall*

It is an established fact that more and more hiring authorities are looking to social media sites to gather information about a person prior to making a final hiring decision. A recent Microsoft-sponsored study revealed that 79% of US HR/Recruitment professionals use online information to evaluate candidates most or all of the time. Further, 70% of US HR/Recruiters have rejected candidates based on their online reputation. Only a little over one third of the consumers surveyed reported being concerned that their online reputation impacts their chances of getting a job or admission into a college or university in the future.

Performing pre-employment background checks of social media sites is becoming increasingly prevalent. Agencies and institutions are often outsourcing the tasks to other companies that have developed tools to automate the process. According to social media expert Courtney Shelton Hunt, PhD, Founder of SMinOrgs, “Even if you are not actively on the job market, your digital identity and activity can still be found through social searches. Therefore, it’s in your best interest to establish a strong positive digital presence and monitor and manage it regularly.”

How do you know if your online reputation is positive, and what do you do if it needs to be strengthened or repaired? To find out what steps you can take, go to: http://associationdatabase.com/aws/NCDA/pt/sd/news_article/53982/_self/layout_details/false or read this complete article in the Delaware Career Compass Teacher’s Guide at: www.delawareworks.com/oolmi/information/publications.aspx

*Janet Wall, EdD, CDFI, MCDP, is a career development practitioner with interests in assessment, technology, evaluation, online learning, and writing. Her website is www.janetwall.net. Contact her at: careerfacilitator@janetwall.net.

# Delaware Career Matrix

The information within the Delaware Career Matrix is organized by the 16 US Department of Education Career Clusters. If the occupations you want to explore are not in the matrix, use O*NET OnLine to find more: [http://www.onetonline.org](http://www.onetonline.org)

The Holland Code represents personality characteristics that can be matched to the characteristics of occupations. To remind yourself of your Holland Code, go back to page 8.

**NOTE:** Although it is typical to describe an occupation with a three-letter Holland Code, some occupations have 1, 2, 3, or even 4 letters to describe the work environment. This is because some occupations are heavily weighted toward one characteristic and others are more inclined toward an equal distribution of several types. Do you have one characteristic that is much stronger than the others?

The 2010 Standard Occupational Classification (SOC) system is used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating, and/or disseminating data. All workers are classified into one of over 820 occupations according to their occupational definitions. Use the SOC code when looking for occupations at: [www.bls.gov](http://www.bls.gov) or [www.onetonline.org](http://www.onetonline.org).

The estimated mean entry wage is based on the data collected by the Occupational Employment Statistics program. Wages are published in *Delaware Wages 2010* by the Delaware Department of Labor, Office of Occupational & Labor Market Information.

Job titles are from the Occupational Employment Statistics (OES) Program or the O*NET Classification System.

2010 estimated employment from the Delaware Department of Labor

2020 projected employment from the Delaware Department of Labor

These data are updated and published every two years by the Office of Occupational & Labor Market Information.

**NOTE:** For more information about occupations, visit O*NET OnLine at: [www.onetonline.org](http://www.onetonline.org) or Bureau of Labor Statistics at: [www.bls.gov](http://www.bls.gov).
### Education

<table>
<thead>
<tr>
<th>Education</th>
<th>Work experience in a related occupation</th>
<th>Typical on-the-job training needed to attain competency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctoral or professional degree: a doctorate (Ph.D.) usually requires at least 3 years of full-time academic work beyond a bachelor’s degree. A professional degree also usually requires at least 3 years of full-time academic study beyond a bachelor’s.</td>
<td>For some occupations, work experience in a related occupation may be a typical method of entry. The majority of occupations in this category are first-line supervisors or managers of service, sales, and production occupations. This metric is meant to capture work experience that is commonly considered necessary by employers, or it is a commonly accepted substitute for other, more formal types of training or education. Occupations are assigned one of the following four categories that deal with length of time spent gaining related work experience: 1. &gt; (more than) 5 years 2. 1 - 5 years 3. &lt; (less than) 1 year 4. None</td>
<td>This category encompasses any additional training or preparation that is typically needed, once employed in an occupation, to attain competency in the skills needed in that occupation. Internship/Residency (Int/Res): training that involves preparation in a field such as medicine or teaching, generally under supervision in a professional setting, such as a hospital or classroom. Apprenticeship (APP): a formal relationship between a worker and sponsor that consists of a combination of on-the-job training and related occupation-specific technical instruction in which the worker learns the practical and theoretical aspects of an occupation. See page 57. Long-term on-the-job training (LTOJT): More than 12 months of on-the-job training or, alternatively, combined work experience and formal classroom instruction, Moderate-term on-the-job training (MOJT): Skills needed for a worker to attain competency in an occupation that can be acquired during 1 to 12 months of combined on-the-job experience and informal training, Short-term on-the-job training (STOJT): 1 month or less None</td>
</tr>
<tr>
<td>Master’s degree: usually requires 1 or 2 years of full-time academic study beyond a bachelor’s.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Bachelor’s degree: generally requires at least 4 years, but not more than 5 years, of full-time academic study beyond high school.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Associate’s degree: usually requires at least 2 years but not more than 4 years of full-time academic study beyond high school.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Postsecondary non-degree award: programs lead to a certificate or other award, but not a degree. The certificate is awarded by the educational institution and is the result of completing formal postsecondary schooling.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Some college, no degree</td>
<td></td>

Step 3: How Do I Decide?

Step 1: You learned about yourself.

1. In Step 1 (p. 16), you learned about yourself and found that these occupations might be a good match:
   ___________________________________
   ___________________________________
   ___________________________________
   ___________________________________

Step 2: You learned about the labor market.

In Step 2, you learned about the Delaware labor market, e.g.,
- occupations often pay different wages in different geographical locations
- occupations often pay different wages in different industries
- some occupations are growing and some are declining
- total annual openings = job replacements + new jobs
- some career clusters have far more job openings than others
- basic worker skills can be identified for each occupation
- occupations are associated with interest codes
- every occupation has an entry wage
- occupations have typical education, work experience, and/or typical on-the-job training required to attain competency

Step 3: You will narrow your occupational choices.

In Step 3, you will make three occupation-related decisions:

1. Job Location
   Where do you want to live? Will you have to relocate to another city or state to find the job you want? Do you want to relocate to another city? Can you make that happen? How?

2. Education/Training
   How many years of education and/or training do you need or want? Will the time and money spent be a good investment in your future?

3. Wages
   How much money do you want to make when you enter the labor market? Will your earnings be enough to support the lifestyle you desire - either now or in the future?

Finally, you will see how you match up to three occupations of your choice.
Where Do You Want to Live?

Do you ever think about where you want to live when you finish school and get a job? Have you considered moving to a different part of the country or even to a different part of the world? Maybe it’s important for you to stay in Delaware near family. If where you live is a high priority, then make it a high priority when you choose an occupation. Delaware has opportunities in many fields including chemistry, banking, and finance. But, unless you can telecommute, you won’t find many opportunities in archaeology, acting, ski patrol, or aerospace engineering.

Another geographic consideration is the cost of living. Look at the table below to see the cost of goods and services in different locations. Will this make a difference in your decisions?

</tbody>
</table>

My top two choices for job location are:
1. _______________________________
2. _______________________________

Write these job locations under Column 1 (My Profile) on Row 5 - Job Location(s) - of the Occupation Chart on page 46.

NOTE: Data are taken from the ACCRA Cost of Living Index 2011 Annual Average Data, published January, 2012.
How Much Education Do You Want or Need?

How much education would you like to attain now, or eventually? Here are some things you should consider:

• Will an education help you meet your occupational goals?
• Will it be worth it financially?
• What kind of education suits your personality and learning style?

Learn more about your options by doing research, and by talking to your family, counselors, and teachers.

1. After graduating high school, I plan to:
   _____ work
   _____ enter an apprenticeship program
   _____ learn a trade through vocational training
   _____ go to a two-year college and earn an Associate’s degree
   _____ go to a 4-year college and earn a Bachelor’s degree
   _____ earn a Bachelor’s degree and then a Master’s degree
   _____ earn a Bachelor’s degree and then a Doctoral degree
   _____ earn a Bachelor’s degree and then a Professional degree
   _____ other?

2. Why have you made this choice?

3. Write the level of education/training you want to attain in Column 1 (My Profile) on Row 6 (Education) of the Occupation Chart on page 46.

Education Pays in Higher Earnings and Lower Unemployment Rates

NOTE: Data are for persons 25 and over. Earnings are for full-time wage and salary workers, nationally.
What Do You Hope to Earn?

It’s never too early to explore the role that money will play in your life.

• Do you need just enough to be comfortable?
• How do you define “comfortable”?
• Do you want a big house, an expensive car, and a second home at the beach?
• Do you want a large family?
• Can you manage with less because the occupation you want to have more than anything in the world is low wage?
• Do you want a pet?
• How is your health?
• Do you have expensive hobbies?

There are no right or wrong answers. There is only a clear understanding of who you are and what your needs and desires are.

Budgeting

1. Budgeting Worksheet

Look over the worksheet on the next page. This budget is based on a taxable income of $35,000/yr or $2,917/mo. After deducting $1,700 for taxes, insurance, pension, and savings, the net monthly take-home pay is $1,217. This is the amount left to pay monthly living expenses and to, hopefully, have a little fun.

Do you think you could manage on an income of $35,000, at least for your first job? What do you need to include in your expenses? Certainly, you need groceries and a place to live. Will your job require clothes that you don’t currently own? What about a car payment? Would you need to spend some of that money on veterinary care and dog food? Do you have a hobby that requires monthly expenditures?

Keep your personal lifestyle and future needs in mind as you complete the budget for two occupations in which you are interested.

Worksheet Directions

Row 1
Write down two occupation titles.

Row 2
Under each occupation, write its annual entry wages* for Delaware.

Row 3
Divide by 12 to convert the annual wages to gross monthly wages.

Rows 5 – 10
Do the math for each row. Example:
Row 3 (Gross Monthly Wages) x Row 5 calculation rate (25% or .25) = the amount being taken out of your monthly wages for Federal taxes.

Federal and state tax rates are dependent on your income bracket. See the tables beneath the worksheet to find out in which bracket you fall.

Row 11
Total your taxes, deductions & savings for Rows 5 – 10.

Row 12
Subtract Row 11 from Row 3 to find out what your net monthly take-home pay will be.

Rows 14 – 24
Do your research to complete this section. Look in the classifieds or go online to find out what apartments cost. Or, use the average costs in the Where Do You Want to Live table on page 42 as a guide. How far will you have to drive? How much is gas? Can you take public transportation or even walk or bike to work? What is your monthly phone bill? Make your best guess as to what your expenses will be.

Row 25
Total all your expenses from Rows 14 – 24 to get your total expenses.

Row 26
Subtract your expenses (Row 25) from your Net Take-Home pay (Row 12).

2. How does your budget look? Do you have any money left? Will you need to cut your expenses? Can you share an apartment? Can you find a cheaper car or a cheaper phone plan? Can you save more? Based on what you have learned, write your desired entry wage at the top of page 45.

*To find wage information, go to: www.delawareworks.com/oolmi. Click on Publications and scroll to Delaware Wages 2011. Budget for an average entry wage. We generally start at the low end of the pay spectrum when we begin working. This doesn’t mean that you won’t eventually meet your income goals. It just means that you will have to budget more carefully in your early work years until you gain experience, build up savings, and earn your raises.
I have completed the budgeting exercise, and based on what I have learned, I would like to earn a minimum entry wage of:

$ _________________________

Write this wage under Column 1 (My Profile) on Row 7 (Entry Wage) of the Occupation Chart on page 46.

**Directions**

Complete this chart to evaluate all that you’ve learned about yourself and the world of work so far.

1. **Column 1**
   - Complete this column with information you have discovered about yourself. Use the page numbers and resources provided.

2. **Columns 2, 3, & 4**
   - Complete these columns for the three occupations that you want to compare. Fill in each cell using the information you have found through your research. If you are missing any information, you know where to find it!

O*NET does not classify occupations by likes (hands, people, information) or learning styles (visual, auditory, kinesthetic/tactile), but you can probably guess where most occupations fall. Keep those preferences in mind, as well.
What Is Your Best Match?

Analyze the results of your Occupation Chart

1. On the previous page, in Columns 2, 3, & 4, circle each item that matches or is pretty close to matching your personal profile (Column 1).

NOTE: If your Profile Holland Code is AIR and the Code for one of your occupations is AIS, that’s still a very close match. It might also be a close match if the A and I are switched (IAR), unless your Artistic personality is extremely dominant. Use your judgment.

2. Now determine which of the three occupations from the chart matches your personal profile the best. Complete the sentence (above right) - My best match at this time is: - with the name of that occupation.

3. Complete the second sentence - I am also still considering these occupations: - with two more occupations if you also believe they could be a good match. They can be the other two that you compared, or occupations from another page that you are still considering.

4. If you are not satisfied with your results, fill out the Occupation Chart again. This time, use three different occupations that you identified in Steps 1 - 3 to see how well they match your profile. Or you may want to research different occupations from O*Net. It’s possible that the best match for you is an occupation that, at this time, you don’t even know exists.

Reality Check

Everything you’ve done thus far in the Delaware Career Compass has been on paper or on the computer. The assessments and research have provided you with occupational patterns to get you started on your career journey. BUT, nothing can take the place of going into the field and trying out a job firsthand.

Are you still considering your dream occupation?

If your dream occupation from Step 1 didn’t make it to this page as a good match, but you’re not ready to let it go, then it’s worth researching that occupation in the real world. Remember that assessments are great tools for determining patterns and setting a course, but they shouldn’t be the only information that drives your decision-making. See if you can interview someone, or volunteer/intern in your dream job to gain a better understanding of it.

If you have learned that your dream occupation is unrealistic or is simply not a good match, then:

• enjoy it as an avocation instead of a vocation, e.g., many people enjoy writing stories or personal journals but would never have the self-discipline to make a living as a novelist. Find a more suitable occupation but don’t give up your writing!

• consider a different job in a similar field. If you have dreamt of becoming a teacher, but you are an introvert who can’t possibly be happy in a classroom of 35 students all day long, consider a one-on-one teaching environment - e.g., tutoring privately, teaching English to a non-native speaker, or teaching reading to an adult. If you decide that a different occupation is the best way to go, fulfill your teaching dreams by volunteering classes at your local library, becoming a mentor, or coaching a little league team.

My best match at this time is:

_______________________________________

I am also still considering these occupations:

_______________________________________

_______________________________________

The date is: ________________________
Begin in High School

1. Take a variety of classes to discover what you’re good at and what interests you. Take a chance and try something new.

2. Consider Tech Prep and/or Career & Technical Education (CTE). Join a CTE organization.

3. Appreciate the diversity of your classmates. Learn to work with all types of people. Move out of your comfort zone.

4. Choose a career pathway that matches your interests and skills.

5. Take advantage of extracurricular activities that interest you. Try sports, clubs, music, community theater, scouts, babysitting, lawn care, photography, etc., to learn new skills, build character, and practice responsibility.

6. Build leadership skills. Resist the temptation to sit on the sidelines; show and use all your abilities.

7. Get really, really good at something - anything.

8. Explore career options. Conduct informational interviews (ask prepared questions) with people who are in occupations that you may want to pursue.

9. Ask family members what paths they took to reach their current jobs and what they learned from their journeys. Shadow them at their jobs.

10. Be curious. Initiate a conversation with someone you’re standing next to in line or sitting with in a waiting room. You may learn about a job you didn’t even know existed.

11. Research the details of occupations on O*NET OnLine.

12. Volunteer to work in a job that you think might be a good career match. What you perceive about an occupation is very often different from the reality of it.

13. Find a summer job that will provide you with more insight into the world of work and how you fit in.

14. Make mindful decisions. Think about the person you want to become and the place you want to fill in this world because you are shaping that person right now.

15. Reflect on everything you try and all that you learn.
What is a Career Pathway?

Every student entering a public high school in Delaware must identify and complete a career pathway to fulfill the requirements for graduation. The career pathway is not a part of a required core academic program. It is an additional requirement of a planned, sequential series of at least three related courses. These courses will provide you with effective technical and academic preparation for entry into high-skill, high-wage, and high-demand occupations while also preparing you for postsecondary learning.

Career Pathway Graduation Requirement

The career pathway graduation requirement can be filled by completing one of the following:

1. a Career and Technical Education (CTE) Pathway
2. an Academically-Focused Career (AFC) Pathway
3. a combination of numbers 1 and 2 – this is called an Integrated Career Pathway (ICP)

These career pathways must:
- incorporate secondary education & postsecondary elements;
- not otherwise be taken to fulfill graduation requirements;
- include academic and career and technical content in a coordinated, non-duplicative progression of courses;
- lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or bachelor’s degree; and
- fall under one of the 16 U.S. Department of Education Career Clusters.

Career and Technical Education (CTE) Pathways are specific within Career & Technical Education programs. Career and Technical Education (CTE) prepares students for employment and/or postsecondary education in current or emerging professions.

Academically-Focused Career (AFC) Pathways utilize academic content in a way that builds knowledge and skills to help students prepare for a chosen career. AFC Pathways may look very different in high schools across the state because they must be comprised of three academic courses above and beyond those required for graduation. This means that the electives may vary considerably from school to school in a variety of content areas, such as Social Studies, English Language Arts, and World Languages.

An Integrated Career Pathway (ICP) is a three credit pathway that consists of courses from multiple CTE pathways or a blend of academic and CTE courses that are a planned and sequential program of study. For example, an ICP may consist of Science, Technology, Engineering, and Math (STEM) courses. You may have the opportunity to combine AFC and CTE courses to craft a pathway. For example, biotechnology is the integration of biology and technology to solve diverse societal problems in areas such as genetics, crop growth and production, food animal growth and production, and biofuels.

How Do I Choose a Career Pathway?

Base your pathway decision on everything you’ve learned about yourself from using the Career Compass and from your online assessments in Career Cruising. What do you like? What skills do you have? What career clusters interest you? What occupations are expected to have openings? Make an informed career pathway choice to prepare yourself for an interesting and fulfilling future.
Agriscience

Agriscience Power, Structural and Technical Systems enables students to develop hands-on and conceptual understanding of electromechanical systems and design, construction, management, and operation of structures that are used in many agriculture-based applications. Animal Science addresses a wide variety of practices and information necessary to ensure healthy animal production and successful maintenance of agricultural and small animals. Animal husbandry, aquaculture, equine studies, and vet tech are a few components of this pathway.

Biotechnology pathways address the agriscience application of biotechnology. Topics include the impact of biotechnology on agricultural practices, genetic transfer, as well as the consumer and ethical considerations.

Food Science provides an opportunity for students to explore the industry involved in the safe production, processing, storage, preparation, and distribution of food for consumption by living things.

Natural Resources and Environmental Science pathways provide insight into topics such as wildlife conservation, environmental preservation, and renewable resource management.

Plant Science and Horticultural Science includes courses related to plant life cultivation, maintenance, production, and distribution. Areas such as floriculture, forestry, and turf production are also included in this pathway.

Family & Consumer Sciences

Early Childhood Education - Children are our future. It is imperative that we provide experiences that will positively shape a child’s future. Early childhood professionals are responsible for the safety of children and the quality of their experiences to support their growth and development.

Family and Community Services - We all need a “little help from our friends.” This pathway focuses on helping families. Individuals and families are both unique and continually changing. Students will be prepared to assist others to find the resources needed to address those changes.

Food Preparation and Production - An insatiable interest in food, nutrition, and wellness-related issues has developed at a phenomenal rate in our country. In addition to food preparation and safe food handling, students will gain the knowledge and skills to enter careers in nutrition, culinary arts, and other fields that involve work with food.

Textiles and Apparel - Everyone wears clothing. This pathway examines the growing fashion industry and how textiles, construction, and design affect us every day. Students will review marketing strategies for apparel and textiles products.

Finance

Accounting prepares students for occupations that record, classify, summarize, analyze, and communicate a business’s financial information and business transactions for use in management decision-making.

Banking Services prepares students for occupations that accept deposits, lend funds, and extend credit to businesses and individuals.

Health Sciences

Biotechnology Laboratory Technician - Assist biological and medical scientists; conduct laboratory tests and experiments.

Dental Assisting - perform many tasks, ranging from patient care to record keeping, in a dental office. Their duties can vary by dentists’ offices where they work.

Emergency Medical Technician - care for the sick or injured in emergency medical settings. People’s lives often depend on their quick reaction and competent care. Respond to emergency calls, performing medical services and transporting patients to medical facilities.

Medical Assisting - perform administrative and clinical tasks in the offices of physicians, podiatrists, chiropractors, and other health practitioners. Their duties can vary with the location, specialty, and size of the practice.

Medical Insurance Coder/Biller - organizes and manages health information data by ensuring its quality, accuracy, accessibility, and security in both paper and electronic systems. They use various classification systems to code and categorize patient information for reimbursement purposes, for databases and registries, and to maintain patients’ medical and treatment histories.

Medical Laboratory Technician/Assistant - Medical laboratory technicians collect samples and perform tests to analyze body fluids, tissue, and other substances.

Nurse Assisting - help provide basic care for patients in hospitals and residents of long-term care facilities, such as nursing homes.

Physical Therapy Aide - assist patients who are recovering from injuries, illnesses, and surgeries regain movement and manage pain. PT aides work under the direction of physical therapists.
Management and Administration

**Administrative Services** prepares students for careers that facilitate business operations through a variety of administrative and clerical duties including information and communication management, data processing and collection, and project tracking.

**Business and Corporate Management** explores careers that focus on planning, organizing, directing, and evaluating all or part of a business organization through the allocation and use of financial, human, and material resources.

**Business Information Technology** focuses on careers that provide a bridge between business processes or initiatives and information technology (IT). It also assists in aligning business and IT goals and explores the design, development, support, and management of hardware, software, and systems integration services.

**Marketing**

**Marketing Communications** prepares students for career opportunities that inform, remind, and persuade a target market of ideas, experiences, goods, services, and images.

**Marketing Management** explores careers that require broad, cross-functional knowledge of marketing and management to support strategic decision-making.

**Skilled and Technical Sciences**

Most of these pathways are offered mainly through the three county career and technical school districts in Delaware. Skilled and Technical Science pathways include extra pathway courses that enable students to focus on a specific career within a career area.

**Examples of career areas include:**

- Automobile Mechanics
- Aviation Technologies
- Construction Trades
- Cosmetology Arts
- Culinary Arts
- Electronics & Computer Technologies
- Heating, Ventilation, & Air Conditioning Technologies
- Welding Technologies

**Technology Education**

**Audio Radio and Video Engineering** – Students explore, develop, and understand the foundations of audio and video creation, the use of studio equipment, and how to produce and edit audio and video content.

**CAD** – Students learn the skills to produce architectural and mechanical drawings and understand how these skills are applied to create solutions to design problems. Students additionally learn how to understand drafting and CAD conventions to communicate design ideas.

**Communication Technology**

– Students apply creativity and technical skills in the area of communication technology. Students gain knowledge of the principles and elements of design, digital image manipulation, and management with a strong emphasis on design layout, text, page composition, and the business aspects of printing, through practical image manipulation and good design principles.

**Construction and Manufacturing** – Students learn the fundamentals of construction and manufacturing technologies, the safe use of tools, equipment, materials, and supplies through the production of construction and manufacturing products.

**Graphic Design & Production** – Students learn the processes of layout and design in various page layout software programs, output devices, and equipment that are used in the graphic design & production industry to produce products.

**Processes of Design and Engineering** – Students learn the foundations of design and engineering to apply strategies for designing, problem-solving, prototyping and solving of engineering design problems.
Should You Be a DE Career & Tech Ed Student?

Answer the following questions:

1. Would you like to know more about high-skill, high-wage, and high-demand career opportunities?
2. How does earning college credit while you are still in high school sound to you?
3. Would you like to look for a career where an employer might pick up the tab for some of your college expenses?
4. Do you think that learning how to solve career-based math and science problems might make math and science more interesting?
5. Are you interested in finding a higher-skill, higher-wage job during the summers that could provide you with valuable career experience?
6. Do you think learning the basic skills that employers highly value would help your future career?
7. Would you like to join with other students in the fun and excitement of a career and technical student organization?
8. Does working on project teams seem interesting to you?
9. Would you like to learn technical career skills that can be used immediately after high school graduation but can also connect directly with post-high school educational opportunities?

If you answered “yes” to one or more of these questions, you should ask your counselor for more information about the career and technical programs available to you.

About Delaware Career & Tech. Ed.

You may have realized that discovering which career is best for you isn’t all that simple. Career and Technical Education could help by providing valuable information and realistic experiences. It includes a wide variety of programs that are designed to equip you with career and life skills. As a career and technical education student, you can explore career options, gain close insight into a number of fields, prepare for a wide range of occupations, and generally improve your life. Career and Technical Education programs prepare students for careers in both global and local economies.

Delaware Career and Technical Education programs offer concentrated education that can prepare you for diverse careers in areas such as agriculture, business systems, computer applications, construction trades, cosmetology, culinary arts, electronics, finance, health, medical technologies, and transportation technologies. (See pages 50 & 51 for more information.) Students who successfully complete these programs can apply for jobs that form the foundation for high-skill, high-wage, and high-demand careers.

Are you thinking about college?

Great! Consider these four facts:

1. High School Career and Technical Education programs can offer free Tech Prep college credits.
2. Career and Technical Education-based jobs can provide career direction as well as valuable experience for college graduates.
3. Career and Technical Education graduates who work their way through college can minimize or eliminate their college loan burden.
4. Unemployed and under-employed 4-year college graduates often enroll in post-secondary Career and Technical Education programs to gain access to high-skill, high-wage, and high-demand technical jobs.

Most career and technical education programs combine classroom instruction, laboratory work, on-the-job cooperative work experiences, and participation in student organizations. This combination makes this type of education an exciting prospect as you consider ways to achieve your career goals.
Should You Join a CTE Student Organization?

If you’re looking for ways to enhance your career and technical education experience, participate in a student organization. Currently, there are seven active organizations available to students enrolled in career and technical education programs. These student organizations can have a very positive impact on career development because they offer “real-life” experiences, insight into careers, and the chance to make valuable contacts with business professionals. Contact a counselor or career and technical education teacher to join.

Business Professionals of America (BPA)

Business Professionals of America is the leading Career Technical Student Organization for students pursuing careers in business management, office administration, information technology, and other related career fields. The Workplace Skills Assessment Program prepares students to succeed and assesses real-world business skills and problem solving abilities in finance, management, IT, and computer applications. Students are able to demonstrate their career skills at regional, state, and national conferences.

Nat’l website: www.bpa.org • Nat’l Facebook: www.facebook.com/businessprofessionalsofamerica
Delaware website: http://delawarebpa.org • DE Facebook: www.facebook.com/groups/133702644401

Distributive Education Clubs of America (DECA)

Distributive Education Clubs of America prepare emerging leaders and entrepreneurs for careers in marketing, finance, hospitality, and management. DECA conferences are targeted, highly-focused learning experiences for students. DECA conferences bring members into the larger DECA community while providing unique opportunities to extend classroom learning. Each of DECA’s conferences connects with corporate professionals to engage students in learning industry-related trends and content.

National website: www.deca.org • National Facebook: www.facebook.com/decainc
Delaware website: http://delawaredeca.org

Family, Career & Community Leaders of America, Inc. (FCCLA)

Family, Career and Community Leaders of America is a national career and technical student organization for young men and women in Family and Consumer Sciences education in public and private schools through grade 12. Involvement in FCCLA offers members the opportunity to expand their leadership potential and develop skills for life -- planning, goal setting, problem solving, decision making, and interpersonal communication -- necessary in the home and workplace.

Delaware website: http://delawarefccla.org

More organizations
Health Occupations Students of America (HOSA)

Health Occupations Students of America, a student-led organization of future health professionals, provides opportunities for students to develop, practice, and refine their technical, leadership, and teamwork skills to achieve a seamless transition from education to a career. Its competitive events program, aligned with the National Healthcare Skill Standards, helps students graduate and be career and college ready.

National website: www.hosa.org  •  National Facebook: www.facebook.com/NationalHOSA
Delaware website: http://delawarehosa.org

National FFA Organization (Future Farmers of America)

The National FFA Organization envisions a future in which all agricultural education students will discover their passion in life and build on that insight to chart the course for their education, career, and personal future. Delaware FFA members are preparing for careers in agricultural marketing, processing, education, horticulture, production, forestry, natural resources, biotechnology, agribusiness, and other diverse agricultural fields.

National website: wwwffa.org  •  National Facebook: www.facebook.com/nationalffa
Delaware website: www.delawareffa.org

Skills USA

SkillsUSA’s mission is to help its members become world-class workers, leaders, and responsible American citizens. It builds and reinforces self-confidence, work attitudes, and communications skills. It emphasizes total quality at work—high ethical standards, superior work skills, life-long education, and pride in the dignity of work. SkillsUSA also promotes understanding of the free-enterprise system and involvement in community service.

National website: www.skillsusa.org  •  National Facebook: www.facebook.com/SkillsUSA
Delaware website: www.doe.k12.de.us/infosuites/students_family/ctso/skillsusa

Technology Student Association (TSA)

The Technology Student Association fosters personal growth, leadership, and opportunities in technology, innovation, design, and engineering. Members apply and integrate science, technology, engineering, and mathematics (STEM) concepts through co-curricular activities, state and national competitions, community service projects, and group organizational activities. The TSA motto is Learning to Live in a Technical World.

LEARN HOW TO GET FREE COLLEGE CREDIT!

FOR DELAWARE PUBLIC HIGH SCHOOL STUDENTS WHO SIGN UP TODAY!

Tech Prep is a FREE program that offers students the opportunity to earn college credits while still in high school, leading to many of the fastest growing careers today! Different career pathways are available at each of the Delaware high schools. Talk to your school’s guidance office or your Career and Tech Ed teachers to get a jump start on your college career now!
Are You Eligible to Work?

Delaware developed laws many years ago to protect anyone under 18 from harmful employment practices by an employer. These laws are designed to prevent you from using dangerous equipment and to limit the number of hours you can work. You should know your eligibility requirements and be aware of what you can and cannot do on the job.

How old do I have to be to work in Delaware?
You must be at least 14 years old.

Do I need a permit?
Yes. All public middle schools, high schools, and school district offices have Child Labor Work Permit forms. After you have filled out the center part of the form and the employer has filled out the upper part, a designated issuing officer will issue the permit. You may also pick up a work permit from DE Department of Labor Offices:
- 4425 N. Market St., 3rd floor, Wilmington
- 225 Corporate Blvd., Ste 104, Pencader Corp. Ctr. Newark
- 1114 S. DuPont Hwy., Dover
- 24 N.W. Front St., Suite 100, Milford
- 600 Dupont Hwy., Georgetown

Do I have to appear in person to get my work permit signed by an issuing officer?
You must be present in order to have the work permit validated except at the Department of Labor/Office of Labor Law Enforcement in Wilmington, Newark, or Milford. All other locations require your presence.

In addition to the completed form, what do I have to bring with me to get a work permit?
If you are getting your permit at your school, the issuing officer can use your school records to verify your birth date. Anywhere else, you must bring a valid driver’s license, birth certificate (original or certified, not a copy), baptismal certificate, passport, or other official government document to prove your age.

Do I need my parents’ permission to get a work permit?
If you are 14 or 15 years old, your parent or legal guardian must sign your work permit. This is not required for 16- and 17-year-olds.

Must I carry my permit with me whenever I’m at work?
No. You will give one permit copy to your employer to keep on file. Another copy will be kept on file at the Department of Labor in Newark until you reach age 18. A third copy should be kept for your own records. You must obtain a work permit each time you change jobs until age 18.

What hours can a 14- or 15-year-old work?
You may work between the hours of 7:00 a.m. and 7:00 p.m. from the day after Labor Day until May 31st. From June 1st through Labor Day, you may work between the hours of 7:00 a.m. and 9:00 p.m. You are also limited to the following:
- On school days: 4 hrs. (Some employers may only allow 3 hrs. of work due to federal law.)
- On a non-school day: 8 hrs.
- Any 5-day school week: 18 hrs.
- During vacation weeks: 40 hrs.
- No more than 6 days in any week.

What kind of work is NOT allowed for teenagers under the age of 18 years?
Using or cleaning slicing machines, dough-mixing machines, and many metal-forming, punching, or shearing machines is prohibited. The erection and/or repair of electrical wires is also prohibited. NOTE: Contact the DE Department of Labor for a complete list.

Are there jobs that 14- and 15-year-old students can’t perform that 16- and 17-year-olds are allowed to do?
Yes. Some examples are using deep fat fryers, baking, construction work, any job using ladders or scaffolds, loading and unloading trucks, and jobs in warehouses (except office and clerical work).

Is there any kind of work I can do without getting a work permit or while I’m younger than 14 years old?
Babysitting, domestic work, or chores in private homes, a golf caddy, and delivering newspapers, if you buy the papers and offer them for resale. Also, if your parent or legal guardian owns a business, she can give you non-hazardous work.

What is the minimum amount of money I can be paid?
The minimum wage in Delaware is $7.25/hr. before any deductions are made for taxes or benefits. However, if you have a job where the customers regularly give you tips, your employer may pay you as little as $2.23/hour as long as you get enough tips to bring your earnings up to $7.25/hr.

Do I get a break at work?
You are entitled to a 30 consecutive minute non-work period if you work more than 5 hours continuously. The employer is required by law to give you this break.
Should You Apprentice?

If you’re already a career and technical education student, you’re well on your way to developing skills that will help in an apprenticeship. In fact, if you are a graduate of one of the six technical high schools in Delaware, you are eligible to apply for an exemption of year one of the apprenticeship program.

An apprentice is a paid employee with benefits provided. You sign a contract with an employer to learn a skilled occupation. You will receive two to four years of on-the-job training while also receiving related classroom instruction. Basically, you are being paid while learning an occupation.

Generally, an apprentice’s pay begins at about half that of an experienced worker (probably $20,000-$22,000 the first year), and increases periodically throughout the apprenticeship. Once training is complete, the apprentice becomes a journeyman, and, depending on the trade learned, will earn, on average, in excess of $30,000 per year. If a journeyman is employed by one of the larger Delaware employers, he or she can expect to make $40,000 or more within five years of receiving his or her “journey papers.” The journeyman certificate is a nationally recognized standard of accomplishment in a given trade.

Most employers require applicants to have at least a high school diploma. Requirements vary from trade to trade, program to program, and plan to plan. Courses in shop, mathematics, drafting, physics, chemistry, and others related to the technical and mechanical trades are highly recommended.

In 2011, Delaware had approximately 1,000 active apprentices, with just under 300 sponsors of apprenticeships statewide, including trade unions and employers from the largest to the smallest.

With state funding, the Department of Education administers funds for registered apprentices enrolled in programs recognized by the State of Delaware. This program is largely free of charge for any registered apprentice enrolled through the Adult Education program at one of the five participating Delaware career and technical high schools.

Is the Military for You?

About the Military

With over 1.4 million men and women on active duty, and 718,000 civilian personnel, the military is the nation’s largest employer. Another 1.1 million serve in the National Guard and Reserve forces.

Reasons to Join

Compensation
Education Support
Professional training
Insurance & Retirement Benefits

Details here: www.todaysmilitary.com/military-benefits

Entering the Military

There are many different ways to become part of the Military. Most people, however, start by choosing between two types of service – enlisted or officer.

Enlisted servicemembers make up the majority of the Military and perform much of the hands-on work. To enlist, an individual must be 18 years old, or 17 with parental consent. He or she must also have graduated from high school, although a General Education Development (GED) certificate is sometimes acceptable.

Officers are the managers of the Military, planning and directing operations or acting in professional roles in fields such as law and medicine. Officers have generally completed a four-year college degree or greater before serving, though it is possible to advance through the enlisted ranks and complete officer training later.

Making a Career Decision

If you are considering the military, the Armed Services Vocational Aptitude Battery (www.military.com/ASVAB) is an evaluation that will help you determine a career field.

Before you make any decisions, think carefully about whether a career in the service is right for you. Gather as much information as possible about the branch you’re interested in before you enlist. Make sure to check into salary, benefits, training, and the terms of your tenure, and talk with your family.
What If I Have a Disability?

NOW, MORE THAN EVER, FULL EMPLOYMENT OPPORTUNITIES ARE AVAILABLE TO INDIVIDUALS WITH DISABILITIES WHO WANT TO WORK! There are a variety of organizations and a number of resources available to assist with the planning that getting and keeping a job involves.

A GOOD STARTING PLACE IS WITH YOUR LOCAL DVR OFFICE. As part of the Delaware Department of Labor’s Division of Vocational Rehabilitation (DVR), you and your counselor will work one-on-one. The goal is to identify the resources needed to accomplish a meaningful employment goal so that you can go to work.

DVR SERVICES INCLUDE:
- Vocational evaluation and assessment
- Employment planning
- Guidance and counseling
- Job development and job placement
- Follow along

HOW DO I CONNECT WITH VOCATIONAL REHABILITATION:
The Division of Vocational Rehabilitation offers employment assistance statewide. Call the office in your area and let DVR provide you the help you need to go to work.

How Do You Prepare for College?

SOPHOMORES

October:
As a tenth grader, you may want to take the Preliminary Scholastic Aptitude Test (PSAT), which is a shorter version of the SAT, the standardized test for reading, writing, and math used by many colleges as part of their admissions decision-making process. You may also want to take the PLAN®, a practice version of the ACT entrance exam that will help you assess your skills, interests, plans, and goals. In Delaware, most students take the SAT rather than the ACT, but most colleges accept either. Don’t feel obligated to take either preliminary test; however, if you do take one, don’t fret over the results as they are not passed on to colleges. They do serve to familiarize you with sample questions. Talk to your school counselor about when to take these tests and check out these websites for more information:
www.act.org/plan
www.collegeboard.com
www.doe.k12.de.us/YYC/index.shtml

JUNIORS

September:
Register for the PSAT, given in October, even if you took it in your sophomore year. Again, the results won’t be sent to colleges, but juniors who are among the top scorers in each state may be considered for National Merit Scholarships of up to $2,500. (www.nationalmerit.org/nmsp.php) Ask if any financial aid or college nights have been scheduled for your area. If you want to begin exploring your financial aid options and get an early start on the financial aid process, go to www.FAFSA4caster.ed.gov. By using FAFSA4caster, you and your family will receive an early estimate of eligibility for federal student aid. This website will also provide you with an opportunity to learn about the financial aid process. It will familiarize you with the various types of federal student aid that are available and will help you to investigate other sources of aid, such as grants and scholarships. When you’re ready to apply for aid, you can easily transition from FAFSA4caster to FAFSA on the web. Much of the information that you enter in the FAFSA4caster will populate your FAFSA on the web application, making the experience of applying for federal student aid a lot easier.

January to March:
Begin to develop your preliminary list of 15 to 20 colleges that seem interesting to you by consulting with your guidance counselor, college catalogs, websites, reference books, and other materials in your high school career center. Make informal visits to a few nearby schools to get a feel for the differences between large and small, rural and urban campuses. Ask your guidance counselor about advanced placement tests which award college credits to high scorers. Visit www.collegeboard.com/student/testing/ap/cal.html.

MORE

SENIORS

May:
Take advanced placement tests.

June:
Most colleges publish their catalogs online. Begin to refine your list to 10 or fewer schools.

Summer Vacation:
Begin to schedule interviews and campus visits for August, September, and October. Start thinking about your application essay.

September:
Ask your guidance counselor for a copy of the Delaware Scholarship Compendium, published by the Delaware Higher Education Office, which lists almost 200 private and state scholarships and provides information about planning and paying for college. The Compendium is available online at www.doe.k12.de.us/dheo. Working with your guidance counselor, narrow your list to five to eight final selections. Ask if any financial aid or college nights have been scheduled for your area. Find out what forms your colleges require for financial aid and be sure to meet each deadline. Ask teachers to write the recommendations that accompany your applications. Work on your essay so you can show it to parents and teachers in time to make revisions. If you are applying under any Early Decision, Early Action, or Single-Choice Early Action plans, make sure your transcript is correct and ready to go out.
October: Start sending applications to schools with rolling admissions. Finish up your Early Decision, Early Action, or Single-Choice Early Action applications, which are usually due between Nov. 1 and Dec. 1; some schools require early financial aid forms with those applications. Many colleges provide online applications or you may be able to use the Common Application at www.commonapp.org to apply to more than one college at a time.

December: Many high schools require that you submit regular deadline college applications for processing early this month. Brace yourself! Early Decision, Early Action, or Single-Choice Early Action responses will arrive from about December 15 through Dec. 31. You can apply for federal financial aid after January 1 online at www.fafsa.ed.gov or ask your guidance counselor for a paper copy of the FAFSA form, but applying online makes the application process faster and easier.

January: Final deadline season begins. Almost all schools require regular admissions applications by one of these dates: January 1, January 15, February 1, February 15, or March 1. File financial aid forms. Have your high school records office send transcripts of your first-semester grades to the colleges to which you have already applied.

March & April: You’ve done all you can do so try to take your mind off waiting for the “answer.” Go to the movies, walk in the woods, or take a long bike ride. Once your responses arrive, take a deep breath, open the envelopes, and read the decisions.

What About Financial Aid?

What Is Financial Aid?

Financial aid is money to help you meet after-high-school education costs. The money for financial aid comes from federal and state governments, the schools themselves, scholarships, and as a last resort, private loans from banks.

You must apply for financial aid to get it. You apply for aid separately from admission to the school. You will not be eligible for a financial aid program if you miss the application deadline. The amount and kind of aid you get is based on your financial need, your academic record, and on the kinds of aid available at the school you attend.

Most students who receive aid get a combination of grants, loans, scholarships, and/or work-study funds. These sources of financial aid are put together in a “financial aid package” by the financial aid office at the school or college you have chosen. Financial aid applications are available from most high school counseling offices and college financial aid offices, and many applications can be completed online.

What Types Are There?

Grants: Usually awarded based on financial need and do not have to be repaid (e.g., Federal Pell Grant*).

Federal Loans: Typically repaid after you leave school at much lower interest rates than regular bank loans (e.g., Stafford Loan*).

Work Study: Money you earn. Jobs are usually on campus and are sometimes related to career goals or fields of study (e.g., Federal Work Study*).

Private Scholarships: These are not repaid. They are awarded by organizations and individuals using a wide range of criteria, including academic excellence, artistic ability, athletics, ethnicity, and field of study (e.g., National Merit Scholarships)

Aid for Military Personnel: Financial aid opportunities that come with joining the military (e.g., Montgomery G.I. Bill). See how you can qualify at: www.todaysmilitary.com or www.gibill.va.gov/benefits/index.html

Financial Aid Resources

There are many sources of financial aid information available. Look for information at your high school, colleges you are interested in, your public library, and on the Internet.

Information about federal student aid is available online at: www.federalstudentaid.ed.gov or call: 1-800-433-3243

For information about state-sponsored aid, contact the Delaware Higher Education Office: www.doe.k12.de.us/dheo 302-577-5240 (local) or 800-292-7935 (outside New Castle County)
Delaware SEED (Student Excellence Equals Degree)
Maintain a 2.5 grade-point average and stay out of trouble and you could earn a SEED Scholarship. SEED provides tuition for eligible full-time students who are Delaware residents and will enroll in the fall immediately after high school graduation in an associate’s degree program at:

Delaware Technical & Community College -

University Of Delaware, Associate in Arts program -
www.cas.udel.edu/associateinarts/Pages/default.aspx

Inspire Scholarship
Students with a 2.75 grade-point average who enroll at Delaware State University immediately following graduation from a Delaware high school can be considered for the Inspire Scholarship. Applicants must be a Delaware resident and submit the FAFSA by March 15. For complete eligibility requirements, see:

www.desu.edu/admissions/inspire-scholarship

The Governor’s Education Grant for Working Adults
This is a state-sponsored tuition assistance program for Delaware residents taking classes part-time and who meet employment, enrollment, and income requirements. Application and eligibility requirements are available online at:

www.doe.k12.de.us/dheo

The program is dependent upon state funding each year.

The Academic Common Market
This is a tuition-savings agreement between 15 states that are members of the Southern Regional Education Board (SREB). If your major is not offered at the University of Delaware or Delaware State University, you may be eligible to pay the in-state tuition of participating public colleges for selected degree programs. To search for eligible programs and participating colleges, visit:

www.doe.k12.de.us/dheo

or call the Delaware Higher Education Office at:
302-735-4120 or 1-800-292-7935

Federal Tax Credits
Depending on your income and enrollment status, you may be eligible for either the American Opportunity Credit (up to $2,500/year) or the Lifetime Learning Credit (up to $2,000/year). For more information, see IRS Publication 970, Tax Benefits for Education, which is available online at:

Teacher Education Assistance for College and Higher Education (TEACH) Grant
The TEACH Grant is a federal program that provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. To learn more, visit:

http://studentaid.ed.gov/PORTALSWebApp/students/english/TEACH.jsp

Iraq and Afghanistan Service Grant
This federal grant assists students who are not eligible for a Pell Grant but whose parent or guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after September 11, 2001. To learn more, visit:

http://studentaid.ed.gov/PORTALSWebApp/students/english/IraqAfghanServiceGrant.jsp?tab=funding

AmeriCorps
AmeriCorps is a network of national programs throughout the U.S. and is made up of three programs: AmeriCorps State and National, AmeriCorps/Vista, and AmeriCorps/National Civilian Community Corps. AmeriCorps volunteers receive education awards for specified terms of service, which can be used to pay for college or pay back student loans. To learn more, call:

1-800-942-2677
or visit: www.americorps.gov
In the fall before you enter your first year of higher education:

1. Select schools that will fulfill your educational and occupational goals. Ask your school counselor about college nights scheduled in your area.
2. Write, call, or email the admissions office at each of these schools. Ask about financial aid possibilities and application procedures. You may be able to apply online.
3. Obtain the correct financial aid applications you will need from high school guidance counselors, college financial aid offices, or private scholarship donors. You can apply online for federal and most state aid and a number of other programs.
4. Estimate the cost of attending each of the schools you have chosen. The FinAid website at www.finaid.org has dozens of tools for calculating college costs, loan payments, savings, and the expected family contribution (EFC).
5. Ask your high school counseling office if they sponsor a free financial aid night. Students and parents can learn about financial aid sources and procedures at these workshops.
6. Begin compiling the family financial information needed to fill out your financial aid applications: last year's tax return, figures on non-taxable income, and information on assets.

Soon after January 1:

7. Submit your Free Application for Federal Student Aid (FAFSA) by mail or online at: www.fafsa.ed.gov. Check with your school counselor if you and your parents need help completing the FAFSA.

In the spring:

8. Some schools may request additional information from you. Learn what each school requires and provide the information by the deadlines.
9. The schools you choose will notify you whether they will give you financial aid. They also will explain how much grant, loan, work-study, and/or scholarship money they can offer you. Compare college costs and financial aid packages using College Board’s comparison tool at: http://apps.collegeboard.com/fincalc/compare_aid.jsp
10. Tell each school in writing if you will accept or decline their financial aid package.

Those who choose to attend the summer term:

11. Aid awarded for the academic year must be used during that period. Aid may, however, be available during the summer term. Ask well in advance of summer enrollment if summer aid is available at your school. Some schools may have a separate summer application process, so be sure to check with your financial aid office.

Each January, if you are planning to be in school the next year:

12. You must reapply for federal aid each year. If your FAFSA is received by the federal processor by April 15th each year, you will also be considered for the state’s need-based grant, the Scholarship Incentive Program: www.doe.k12.de.us/dheo. Find out if you need to reapply for any other sources of financial aid you receive.

Things to do now that may save you TIME and/or MONEY later

- Work hard – keep up your grades
- Take advantage of Tech Prep apprenticeships: www.techprepdelaware.org
- Explore Career & Technical Education
- Take advantage of Dual Enrollment - www.desu.edu/dtcc-dual-admission-program and/or www.pcs.udel.edu/udonline/highschools
- Take Advanced Placement (AP) courses and the accompanying exams: www.collegeboard.com/student/testing/ap/about.html
- Develop your talents (arts, athletics, leadership...)
- Volunteer in your community www.volunteerdelaware.org
- Join a club and be a leader
- Make an informed career plan
- Job shadow and intern
- Participate in school-based enterprises
- Use your summers to build employability skills & develop interests
- Consider taking online classes

How Do You Find the Right Job?

Finding the right job takes planning and preparation. It takes good organization, a lot of time and energy, and a positive outlook. Keep in mind that you’re promoting a productive worker – you! You must market your skills and abilities that will help the employer succeed.

Maintaining a positive outlook throughout your job search can be difficult. But if you follow proven guidelines to help you organize your job search, you will improve your chances of success, even in a difficult job market.

Test the Waters

Volunteer
Volunteering will provide you with valuable personal and work experience which can be an important resume builder. It will also provide you with unique experiences that can help you solidify your career goals, develop teamwork and leadership abilities, and learn new skills.

Volunteering may expose you to very different people and circumstances. You will learn respect and kindness through working with the homeless, serving the elderly, or helping disabled children. You may find that a non-profit is exactly where you want to start your career.

www.volunteer delaware.org
www.serve.gov

Try the job out
Why not try out some jobs before you make a long-term commitment? See if you can find an internship or you might job-shadow someone. You might also try a temporary or part-time job in an area that interests you. Any of these choices will provide you with valuable information about the real world of work and you never know, when you put your best foot forward, you might just end up with a job offer. Visit: www.internships.com

Build a Network

What is networking?
Networking is the cultivation of productive relationships for employment and business. It is most certainly a two-way street, and it is a skill worth perfecting because it will benefit you throughout your life.

Who should be in your network?
Start with family, friends, teachers, and neighbors. After you feel comfortable with those closest to you, broaden your network to those in your community who have similar career interests and who are currently doing jobs in which you are interested.

When should you begin to network?
NOW! Don’t assume that networking has little to do with you because you are in high school. This is the perfect time to practice valuable networking skills. Who will nominate you and support you if you run for an elected office? Who will be your references for college or a job? Who will provide you information about the world of work? Your network, of course.

How do you network?
Involve yourself with groups that interest you and that pertain to your future career. Be a leader in these groups. Use your high school years to connect with your community and the greater world as much as possible. Do projects that will require conversations and research with business leaders, government officials, and community activists. Learn from them. Invite them to be your friends and your mentors.

A more formal way to network and learn about the world of work is to conduct informational interviews. Call someone in a field that interests you and make an appointment to interview him/her about her work.

You can expect Delaware employers to check your high school transcript to help determine whether or not to hire you. They’re not only looking at your grades, but also at your attendance, which is a good measure of your reliability and commitment.

You will not only learn about the occupation, but you will broaden your network and develop a relationship with someone who might hire you someday. (Read more about informational interviews on the next page.)

Assert yourself. Approach someone and simply ask about his/her job. Next to doing the job, it’s a great way to learn about an occupation that interests you. You never know, you may have just begun a relationship with the person who’s going to connect you with your first job.

Introduce yourself
Make sure everyone you meet knows who you are. Always look the person in the eye, shake hands, and give him/her your card or simply introduce yourself. If she asks you about yourself, do you know what you would say? Think about the question and then practice answering it in private. Before long, it will be natural for you to talk about yourself. Don’t forget that networking is a two-way street; think about what you may have to offer a person in your network.

Document your contacts
As you build your network, document each contact. Start a notebook or spreadsheet to record the information. Include names, phone numbers, addresses, emails, how you know them, and what they do. Jot down any notes that will help you remember how you met them, who connected you, what skills they have, and how you might be valuable to them. Communicate with your network regularly.
Step 4: How do I do it?

What is an informational interview?
An informational interview is similar to a face-to-face job interview except that you are gathering information about occupations by asking the questions instead of answering them.

What are the benefits to you?
1. You will learn firsthand about occupations from the people who are actually doing the work.
2. You will build your network with people who are in your field.
3. You will improve your interviewing skills.
4. You might learn about hidden (unadvertised) jobs.

What guidelines should you follow?
• Interview people from your occupations of interest.
• When you call, say how you got the person’s name.
• Explain that you’re seeking information and guidance.
• Ask to meet for 20 minutes. Wear a watch and stick to it.
• Bring paper and pen with you and take notes.
• Thoroughly research the occupation and organization prior to the interview. (Complete the Company Research Worksheet on the next page.)
• Dress and act as you would at a job interview.
• DON’T ask the person for a job.

How should you follow up?
• Thank the person.
• Ask for referrals to others in the same occupation who might be available to speak with you.
• Ask for his or her business card.
• Immediately send a thank you note.
• Evaluate how well you conducted the interview. How will you improve your interviewing skills next time?
• Review your notes and decide on your next steps. Did you like what you heard about the occupation? Did you like the environment of this particular workplace? Could you see yourself working there or someplace similar? If not, why not?

What questions might you ask?
• How did you get into this type of work? this particular job?
• What type of preparation/education/training do you have? What is required?
• What do you enjoy the most? the least?
• What three skills do you use most often in your job?
• Describe a typical day or week.
• What motivates you?
• Describe difficulties you regularly face on the job.
• What are the advancement opportunities and limits?
• How does a person usually progress in this field?
• How does a person stay competitive in this field?
• How do you suggest I learn more about this occupation?

Use Your Resources

Join A Job Club
Job clubs for graduating students often provide opportunities to participate in mock interviews and resume workshops.

Use Your School Career Center
Explore your high school career facility and see how you can benefit from the services it offers.

Use Your Public Library
Explore the resources in your local library’s career center. Ask for assistance from the librarian.

Use the Internet, but Not Exclusively
Online postings are an effective way to conduct a job search, but in today’s market, don’t forget that face-to-face networking and “pounding the pavement” are still critical.

Go to Job Fairs
Job fairs can be a place to find a job, but they’re also a place to network for future jobs. Even if you’re not yet looking for work, you will learn a lot about the world of work by attending a job fair. Bring your questions!

Beware of job-board fraud. Never, ever provide social security number, credit card information, marital status, or other personal information on a job board or anywhere else on the Internet.
Resumes, Cover Letters, & Applications

These very important job-search tools don’t have to be scary. You will master them just as you have mastered math or reading or soccer; it just takes practice. The good news is that you have skills that employers want and need. Good resumes, applications, and cover letters simply tell your story. If the tools are constructed well, you will land interviews and eventually, a job. The first section on resumes, describes what information they should contain, how to highlight your skills for the job you want, types of resumes, and formatting resumes. There’s also a brief look at using online resume services. The next section discusses the four parts of a cover letter: salutation, opening, body, and closing. And the final section offers advice on completing job application forms.

Win the Interview!

A resume is a marketing piece designed for one specific purpose: to win the interview. A good resume will focus on the employer’s needs, not yours. It will say to the employer – if you hire me, you will get these direct benefits. It is your job to sell yourself.

There are four main steps to help you create your resume: compile the appropriate information about yourself; choose a format; add style; and proofread the final document. You will also want to prepare your resume for computer scanning, emailing, and Internet posting.

Gather the Facts

Gather and document your personal information. Use the Personal Fact Checklist on page 68 as a guide for the formal collection process. To add to your formal information, think about those things that make you unique: difficulties you’ve overcome, qualities that make you outstanding, problems you have solved, things you have created, etc. Update your file as you gain new experience, learn new skills, win awards, etc.

Experience:
EmpHASIZE results, instead of responsibilities, and performance, not just qualities. Results might include the actual amount of time and/or money you saved or the percentage increase in a club’s membership because of your leadership.

Performance might include the number of phone lines answered, the number of forms processed, or the number of people supervised. Any team successes should be noted as such. Build your list using strong action verbs.

Activities/Associations:
If you don’t have much concrete work experience, list your involvement in school or extracurricular activities. Employers look for people who demonstrate initiative, hard work, and leadership.

Special Skills:
Highlight your impressive skills even if they don’t relate directly to the occupation. These skills reflect the interesting and accomplished person you are.

Awards/Honors:
Note formal recognition you have received including work or academic awards. These are often listed in the experience or education section but may be listed separately.

Other Personal Information:
You should include information that is important to the job for which you are applying. This might include a portfolio or a willingness to travel. Do not include a link on your resume to any site that isn’t appropriate for a business audience. Do not disclose information on health, disability, marital status, age, or ethnicity. This information is illegal for most employers to request.
References:
References available upon request is sometimes centered at the bottom of a resume, but it is not necessary anymore. Before offering anyone as a reference, be sure he/she has agreed to recommend you.

Create your own reference sheet to mail or fax to an employer and to take to interviews. Include three to five people who know your abilities and will speak highly of you. At the top of the sheet, type your name and contact information, repeating the format you used in your resume.

Choose a Format

Now that you’ve gathered your information, determine how to best present it to a specific employer for a specific job. Two traditional resume formats are chronological and functional. Each of these is briefly described, and a sample of a functional resume is provided on page 69. The functional resume is generally the preferred format for high school students who have little work experience, but you should choose the format that will highlight your qualifications while best meeting the needs of the employer. Regardless of the style you choose, remember to use strong action verbs to begin each statement. Use the action verbs list provided to help you.

If you have a work history with gaps, use the cover letter to explain them. Or you could fill the gaps with your volunteer work, community activities, or family responsibilities during those times.

Chronological Resume:
This format organizes your experience around the dates of the jobs you have held. Three to five results or performance items for each job are usually sufficient. This format is an excellent choice for people with steady work histories or previous jobs that relate closely to their career objective.

Functional Resume:
This format organizes your information around your job skills rather than job titles and dates. It is recommended for those with little job history or a history of positions that do not directly relate to the job being sought.

Identify three or four skills required for your target job. For each skill, identify three to five concrete examples that clearly demonstrate your ability to perform that skill. Arrange the skill headings in order of importance. The closer the match between your skill headings and the reviewer’s expectations for the job vacancy, the more qualified you will seem.

Finally, include a brief work history. Include the company name, its location, your job title, and years worked.

Add Style

Create a good impression with an attractive and easy-to-read resume. An inviting style draws attention to your qualifications. Print it on white or lightly-colored paper. Use a laser printer and keep the font size at 10 point or higher.

Design:
Boldface, large type, capital letters, centering, or horizontal lines can be used to make headings stand out on the page. Bullets or italics can draw attention to key accomplishments. One-inch margins around the page and blank lines between sections will make all the information easier to see. Small design elements are nice, e.g., a name and address printed in letterhead style. Large graphics are distracting.

Maintain the same style throughout. If your education heading is bold and centered, then every heading should be bold and centered. Use no more than two typefaces, e.g., Arial & Times.

Length:
In general, students and recent graduates use a one-page resume. If you are over this, your resume probably contains unnecessary words or irrelevant information. Remove anything that does not help prove that you are the perfect candidate for the job.

Proofread

Make your resume a “0” error zone.
Proof for typos, grammatical errors, spelling errors, punctuation errors, and content errors. Computer spell checkers do not catch correctly spelled words used incorrectly, e.g., of for on or their for there. Use your spell check but also have several people proofread your resume.

Finally, consider how your resume will look when it arrives on a reviewer’s desk. Hastily stuffed, illegibly addressed, and sloppily sealed envelopes do nothing to enhance your image as a neat, would-be professional. If you are faxing your resume, set the fax machine in fine printing mode and always fax an original.

Going Digital

A traditional hard copy, paper resume is designed to catch the eye of the human reader. An electronic or digital resume is designed to catch the “eye” of a computer. The content of your resume will be the same but the format will be quite different if you hope to be successful.

Two types of digital resumes are:
1. plain text – can be emailed to employers or posted to databases
2. scannable – can be read by computer optics.
Plain Text Resumes
These must be written using ASCII, or plain text. Plain text uses no special formatting codes, so every computer can understand it. The success of this type of resume depends, in part, on the number of keywords it contains – those nouns and phrases in your resume that match the skills an employer is seeking. Use this type of resume to apply online and to email to prospective employers.

Before emailing your resume to an employer, email it to yourself and a friend to see how it transmits. Always send your cover letter and resume as text in a single message. Do not send it as an attached word-processed document.

Scannable Resumes
Companies sometimes use computers to sort the hundreds of resumes they receive. They scan paper resumes into a computer database. When managers need to fill a position, they program the computer with keywords that describe the qualifications they seek. The computer then searches its database for resumes that match those keywords. Just as in the plain text resume, the success of this type of resume depends, in part, on the keywords and phrases you choose.

Before you submit your resume to a company, call them to find out if they scan. If they do, make sure your resume is computer friendly.

Build Your Resume Online
Online forms can be a good way to begin what can be a very daunting process, especially if you’ve never written a resume before. However, the result will rarely be as perfect and professional as one you create yourself. If you choose to build your resume online, it is recommended that, upon completion, you copy and paste it into a word processor for editing. This will allow you to make changes to both content and formatting.

Sample Functional Resume

Jamaal Young
2006 Main Street
Downtown, Delaware 19802
Home: 302-555-1212 • Cell: 302-123-4567 • JYoung@comcast.net

Profile
An honor roll-student athlete with work experience in the fast food industry and youth summer camp. Demonstrates outstanding leadership, public speaking, and technical skills. Major strengths include baseball analysis, youth development, and time management. Expertise in desktop publishing, digital photography, and customer service.

Skills
Customer Service
- Demonstrated strong communication skills by filling customer orders quickly and accurately
- Exceeded sales targets by using an enthusiastic and cheerful demeanor
- Instructed new employees in methods of greeting customers

Leadership
- Coached summer camp youth baseball team
- Used strong counseling skills to guide campers to a successful summer
- Directed all desktop publishing activities which resulted in weekly newsletters to parents
- Prepared and delivered speeches as a representative of the Student Government

Computer
- Proficient in Microsoft® Office Suite
- Proficient in Adobe® Creative Suite
- Knowledge of HTML

Work Experience
Cashier
- McDonald’s, Downtown, DE
- 2010 - present

Youth Counselor
- Beach Sports and Technology Camp, Beach, DE
- 2010, 2011, 2012

Extracurricular Activities
Captain
- Downtown High School Varsity Baseball Team
- 2013

Yearbook Photographer
- Downtown High School
- 2012 and 2013

Student Government
- Downtown High School
- 2011 – 2013

Awards and Honors
Employee-of-the-Month Award for outstanding customer service at McDonald’s
All-State First Baseman: outstanding varsity player and overall sportsmanship

Education
Downtown High School
- Expected Graduation
- June, 2013

Refer to the Delaware Career Compass Teacher’s Guide for chronological and combination resume samples. Find the Guide online at: www.delawareworks.com/oolmi/Information/Publications.aspx
Cover Letters: Introduce Yourself

Every resume you send, fax, or e-mail needs its own cover letter. Sending a resume without a cover letter is like starting an interview without shaking hands. The best cover letters spark an employer’s interest and creates an impression of competence.

Writing a strong cover letter and then calling to follow up shows the employer you have drive and interest. Although you should feel free to consult references and models, use your own words when writing; don’t mimic another person’s writing style. Cover letters are an opportunity to convey your focus and energy.

Write your cover letter in standard business format. Put your address and the reviewer’s name and address at the top and your signature above your typed name at the bottom. All letters should be single-spaced, flush left, with each paragraph followed by a blank line. Most are two or three paragraphs long.

Parts of a Cover Letter

Every cover letter should fit on one page and contain the following four parts: salutation, opening, body, and closing.

Salutation
Whenever possible, send your letter to a specific person rather than to an office. If you do not know to whom you should write, call the company and ask who is hiring for the position. Check that the name you use is spelled correctly and the title is accurate. Pay close attention to the Mr. or Ms. before gender-neutral names. Finally, use a colon after the name, not a comma.

Opening
The first few sentences of your cover letter should tell the reviewer for which job you are applying and the connection you have to the company. If someone the reviewer knows suggested you apply, mention that recommendation. If you are responding to an advertisement, refer to it and the source that published it.

Your knowledge of the company will give you another opportunity to connect yourself to the job. Briefly describe your experience with its products, refer to a recent company success, or refer to an article written about the company. But don’t go overboard; save specifics for the interview.

Body
This portion will contain a brief explanation of your qualifications. Don’t repeat your resume. Summarize your most relevant qualifications or provide additional details about a noteworthy accomplishment. Address the employer’s requirements directly and don’t be afraid to use special formatting to your advantage.

You can also use the body of the cover letter to address gaps in your work history. Do not volunteer negative information unless you must. Always maintain a positive, confident tone.

Closing
In your final paragraph, thank the reviewer, request an interview, and repeat your home phone number. The closing is your chance to show commitment to the job. If you tell the reviewer that you plan to call, then make sure you do it. You must be assertive and continue to keep your name in the interviewer’s mind.

Job Applications

Request two copies of the form.
If only one is provided, copy it before you write on it. BUT, most applications are now online.

Read the whole application before you start to complete it.
Follow all directions carefully.

Be neat.

Spell correctly and use good grammar.
Take the time to check!

Don’t leave any blanks.
Put “not applicable” or NA when the information requested does not apply to you.

Give reliable references.
Be sure to request permission of each reference source in advance.

Sign and date the application.

Be sure to have a reference sheet with you when you apply.

Never lie on a job application.
2006 Main Street
Downtown, Delaware 19802
March 25, 2013

Mr. Thomas Jeffers
Human Resources Manager
Downtown Green Hornets
1000 South Main Street
Downtown, Delaware 19801

Dear Mr. Jeffers:

I was referred to you by Mr. James Smith, Assistant Coach for the Green Hornets, who informed me that you are actively seeking to hire an Administrative Intern for the summer. This position appeals to me because of my strong interest in baseball and my desire to use and improve the computer and organizational skills I have developed through my classes and extracurricular activities at Downtown High.

My strengths include strong communication and time management skills, as well as great energy and dependability. I am proficient in both Microsoft® Office Suite and Adobe® Creative Suite. I enjoy taking digital pictures, many of which have been used in the Downtown High Yearbook. I am confident that the combination of my practical skills, my interest in baseball, and my ability to apply my knowledge to whatever tasks are given me will make me a valuable asset to the Green Hornets organization.

I am enclosing a current copy of my resume. If you have any questions, please call me at 302-555-1212. I may also be reached by email at JYoung@comcast.net. Thank you for considering me for this position. I look forward to hearing from you soon.

Sincerely,

Jamaal Young

An application form sometimes makes it difficult for an individual to adequately summarize a complete background. Please attach an additional sheet to summarize any additional information necessary to describe your full qualifications for the specific position for which you are applying.

I certify that the information contained in this application is true and complete. I understand that false information may be grounds for not hiring me or for immediate termination of employment at any point in the future if I am hired. I authorize the verification of any or all information listed above.

Applicant’s Signature: ____________________________ Date: _______________
Interviews

Although an interview can be a stressful experience, consider it a form of recognition and an opportunity to gain something valuable without risking anything but your time. Prepare thoroughly. It will give you a strong advantage.

Make a Job Search File
Collect anything you may need to be prepared for your job search and upcoming interviews. This is where your personal portfolio will come in very handy.

Include the following:
- Birth certificate
- Social security card
- Work permit (if applicable)
- Copy of driver’s license
- Diploma/Certificate
- Personal data sheet with previous employment information
- Several copies of your resume
- A neat and complete copy of your job application
- A copy of your references
- Letter of introduction
- Letters of recommendation
- Samples of your work, if appropriate
- A black pen to complete any forms or tests, and paper to take notes

Prepare Yourself

Attitude: Am I thinking positively and like a winner?
Outfit: Is my dress appropriate, pressed, and clean?
Neatness: Do I have a comb, brush, and cosmetics to touch-up?
Body Scent: Do I have a clean, fresh scent? Have I bathed and used an appropriate amount of deodorant and/or perfume?
Hair: Is my hair clean and combed?
Breath: Is my breath fresh?
Language: Use appropriate language.

Know Yourself
- How do your education, training, knowledge, skills, and abilities relate to the specific job for which you are interviewing?
- What makes you different and more qualified than other people?
- What are your goals and objectives, including what you’re looking for in a job and/or career?
- What is your previous work experience?
- What are the names of previous employers, addresses, and telephone numbers?
- What are your dates of employment?
- Who can give information about your performance?
- What are the reasons you gave up or lost your previous positions?
- Are there any similarities between any postsecondary and/or work experience and the potential job?

Prepare to Answer Questions
- Tell me about yourself.
- What are your long-range career objectives?
- What do you consider your greatest strengths and weaknesses?
- Why should I hire you?
- In what ways do you think you can make a contribution to our organization?
- How has your education prepared you for your career?
- What interests you about this job?
- What are the most important factors that you require in a job?
- Do you prefer working with others or by yourself?
- Why did you choose this field of work?
- How do you handle pressure?
- What did you like most in the jobs you have held? Least?
- Do you ever work overtime?
- What kind of relationship did you have with your last two supervisors?
- How many days did you miss on your last job?
- What do you feel was your greatest accomplishment on your last job?
- In one word, describe yourself.

Know the Company
- What are the products and services the company offers?
- Who are the company’s major competitors?
- What is the company’s philosophy?
- What is the company’s size, its annual sales, and its share of the market?
- What jobs are available in this company?
- What are their hiring practices and procedures?
- What are the duties, responsibilities, and promotion potential for the job they are filling?

Prepare to Ask Questions
- What three words would you use to describe this company?
- What is the company’s attitude toward professional and educational advancement?
- Does the company have a code of ethics?
- Please describe the managerial style in this office.
- Is there anything else you need to know about me in order for me to be fully considered for the job?
- When will a decision be made?
During Your Interview

- Go alone
- Arrive at least five minutes early
- Act naturally
- Do not smoke or chew gum
- Shake hands firmly
- Know the name of the person interviewing you
- Answer clearly and honestly
- Maintain eye contact with the interviewer
- Give good reasons for hiring you
- Don’t discuss your personal, domestic, or financial problems
- Do not criticize former employers
- Be positive and enthusiastic; show your interest
- Thank your interviewer before leaving

After Your Interview

Write a Thank-You Note
The day after the interview, write a thank-you note expressing appreciation to the interviewer for taking the time to see you. Make sure to proofread it!

Reflect on the Interview
How did you do? What did you learn about yourself? What did you learn about the company? Do you think the job would be a good match? What can you improve upon for your next interview? Jot down some notes and use them to make each interview stronger.

If you don’t hear from the interviewer within two weeks, it is appropriate to call or write to politely remind him/her that you are still interested in the job. Ask when a hiring decision will be made.

Select the Right Job
If you are offered the job, there is some information you may want to check before accepting it. Do not hesitate to ask for any information you need to make an informed decision.

Organization:
- Are the goals of the business or agency compatible with your work values?
- Are the immediate future prospects of the business relatively secure and stable, or is bankruptcy or a merger possible?
- Does the business fluctuate with the growth and decline in the economy?

Work:
- Where is the job located?
- What are my hours?
- How does it fit into the overall operation of the organization?
- Does it fully utilize your abilities and interests?
- Is travel involved? If so, how much?
- How much turnover of personnel is there in the organization?

Opportunities:
- What are the training opportunities?
- What are the opportunities for challenge & expansion of job duties?

Salary and Benefits:
- What is the starting salary?
- How often and under what circumstances can a raise be expected?
- What is the complete package of benefits?
- How financially secure is the retirement system?

Some Reasons You Weren’t Chosen
- Lack of clear career goals, or maybe you have chosen the wrong goal - your goal doesn’t match your skills or the job market
- Inability to express information clearly
- Lack of interest or enthusiasm—merely shopping around
- Failure to look interviewer in the eye; no confidence or poise
- Poor personal appearance
- Interested only in the best dollar offer
- Asking uninformed questions about the job or the company
- Arriving late for the interview
- Body piercings or tattoos that are inappropriate for the specific job
- Another candidate was a better fit

Keep Your New Job

Do Good Work
- Learn your job and do it well.
- Make yourself invaluable.
- Learn a skill that few people in your workplace know.

Be Dependable
- Be on time. If you say you’ll be somewhere, be there. If you say you’ll do something, do it.
- If you must take a day off for family or personal reasons, arrange it ahead of time with your supervisor.
- If you’re too ill to work, call your supervisor to explain as soon as you know you can’t come in.

Keep a Good Attitude
- Don’t wait to be told what to do. Look around, see what needs to be done, and do it. Be willing to do more than you are asked to do.
- Be polite and respectful to your coworkers, supervisors, & customers.

Be Helpful
- If a supervisor needs you to help a co-worker on a project, don’t hesitate. Not only is it great to be known as a helpful person, but you’ll learn a few things and become an even more valuable employee along the way.

Be a Team Player
- Support your coworkers, encourage others to succeed, and use your strengths in the workplace.

Dress for Success
- Pay attention to how you look and dress. Keep your hair and general appearance neat and well-groomed.
- Wear clean and pressed clothing that is appropriate for your job.

Treat Everyone with Respect
- Be honest. Stay positive. Your coworkers are your teammates. Mutual respect is the key to a healthy working environment.
Thank-You Notes

It is essential to write a thank-you note within 24 hours of your interview. Whether you want the job or not, write the note; you never know when another job that’s more suited to you will become available and it would be a shame to have burned your bridges.

The letter may be typed or neatly handwritten on personal stationery. It may be emailed if the decision is going to be made immediately or if you have been told that this is the employer’s preferred means of communication.

Personalize the note to meet the specifics of the position for which you are applying. Use the names of the interviewer(s) and anyone else who was involved in the process.

You also have the opportunity to restate why you want the job and how you could make significant contributions to the company. And if there was anything of importance that your interviewer neglected to ask or that you neglected to answer as thoroughly, or as well as you would have liked, this would be a good opportunity to mention it. But keep it short; do not restate everything that was already covered.

7 reasons to send a thank-you note

1. Sending a thank-you note demonstrates that you are polite.
2. It helps interviewers remember you after the interview.
3. It may just increase your chances of being hired. You will stand out. Not everyone takes the time to write a note.
4. It shows that you are serious about your career efforts.
5. It demonstrates that you are organized and pay attention to details.
6. It demonstrates that you went out of your way to show interest in the company and/or position.
7. If they decide to hire someone else for this position, perhaps there will be another opportunity that will suit you, and you will be remembered.

Dear Mr./Ms. Last Name:

Thank the interviewer for his time and the opportunity to speak with him. Thank him for telling you about the company and the position. Mention your enthusiasm for the job and why you believe you are a good fit for the job.

Include any impressions of the organization or position that you found especially interesting. Add any information you didn’t share during the interview that you believe would increase your chance of getting the position.

Conclude by showing that you have a strong and sincere interest in the job and you look forward to hearing from him.

Sincerely,

signature

76 DELAWARE CAREER COMPASS
Tony Wagner’s Seven Survival Skills
as defined by business leaders in their own words

*Tony Wagner, Ed.D, Harvard University

Critical Thinking and Problem Solving
The idea that a company’s senior leaders have all the answers and can solve problems by themselves has gone completely by the wayside…The person who’s close to the work has to have strong analytic skills. You have to be rigorous: test your assumptions, don’t take things at face value, don’t go in with preconceived ideas that you’re trying to prove.”

~Ellen Kumata
consultant to Fortune 200 companies

Collaboration Across Networks/Leading by Influence
The biggest problem we have in the company as a whole is finding people capable of exerting leadership across the board…Our mantra is that you lead by influence, rather than authority.”

~Mark Chandler
Senior Vice President and General Counsel at Cisco

Agility and Adaptability
I’ve been here four years, and we’ve done fundamental reorganization every year because of changes in the business…I can guarantee the job I hire someone to do will change or may not exist in the future, so this is why adaptability and learning skills are more important than technical skills.”

~Clay Parker
President, Chemical Management Div, BOC Edwards

Initiative and Entrepreneurship
For our production and crafts staff, the hourly workers, we need self-directed people…who can find creative solutions to some very tough, challenging problems.”

~Mark Maddox
Human Resources Manager, Unilever Foods North America

Effective Oral & Written Communication
The biggest skill people are missing is the ability to communicate: both written and oral presentations. It’s a huge problem for us.”

~Annmarie Neal
Vice President for Talent Management at Cisco Systems

Curiosity and Imagination
Our old idea is that work is defined by employers and that employees have to do whatever the employer wants…but actually, you would like him to come up with an interpretation that you like—he’s adding something personal—a creative element.”

~Michael Jung
Senior Consultant at McKinsey and Company

Accessing and Analyzing Information
There is so much information available that it is almost too much, and if people aren’t prepared to process the information effectively, it almost freezes them in their steps.”

~Mike Summers
Vice President for Global Talent Management at Dell
